fice Memorandum • United States Government

Director, FBI

DATE: January 28, 1949

SAC, New York

JAY DAVID WHITTAKER CHAMBERS, Was. SUBJECT:

ET AL; PERJURY

ESPIONAGE - R

Re Newark teletype January 26, 1949, relative to PAUL and HARRY

TAMER.

The following background information is furnished in order that Newark may immediately interview PAUL TAMER and subsequently, if possible, interview HARRY TAMER.

Newark is referred to the report of SA J. E. SEYKORA, dated January 23, 1939, entitled "MOISCHE (MAURICE) STERN, was; ET AL; ESPIONAGE." A copy of this report was furnished Newark. On page 20, information is furnished by ROBERT GORDON SWITZ relative to "an engineer who lived in an apartment in the same building as the 55th Street Headquarters in Brooklyn." Reference is also made to report of SA RUSSELL E. WHITE, dated at New York, April 14, 1943, in the same case, which sets forth additional information relative to the engineer in question and the results of the investigation to identify him. Newark has previously been furnished a copy of that report.

Newark is being furnished herewith, copies of the reports of SA J. E. SEYKORA in the same case, dated June 17, 1939, and September 22, 1939. The report of June 17 on page 5 set forth the results of the investigation relative to the apartment at 1673 55th Street, Brooklyn, identified by SWITZ as the headquarters of the Soviet espionage group with which he was connected in the early 1930's. On page 10 of the September 22 report, additional information is set forth relative to the occupants of that building.

CHAMBERS has now furnished additional information relative to the use of the 55th Street apartment as an espionage apparatus headquarters and he has furnished supplementary information on individuals connected with it, including the TAMERS and SHOYETS. The information which he has furnished is set forth below:

(IN 1926-7) "It is my recollection that the "Daily Worker" has no facilities for printing the paper and this work, so far as I know, was let out to an independent contractor located, as far as I know, in the same building as the Daily Worker" office. Inasmuch as there was some resentment among the linetype operators about working on the "Daily Worker" material I would, from time to time, circulate about the linetype room, and I got to know some of the men fairly well and

2 CC: Newark (3 Encs.)

Kisseloff-4573

INDEXED'- 81 EX-109

They liked me. As a result the work ran more smoothly. While I was so engaged, I became acquainted with SAM SHOYET, the assistant foreman of the company that was doing the linotyping and printing. I knew SHOYET to be a member of the Communist Party and I recall that on one or two occasions, while in conversation with him, he remarked that he had lived in Paris and Tokyo. I recall asking him how he got along in these cities and he merely remarked that he followed his trade as a printer.

"Some years later, when I was talking to Dr. PHILIP ROSENBLIETT, he informed me that SAM SHOYET was a Russian Agent who, sometime in the 1930's, was sent as a Soviet Agent to Mukden in Manchuria; that SHOYET's daughter, AZIA, a bacteriologist who studied at Hunter College, had been sent at approximately the same time to Vladisvostok, probably to join her father in some Soviet espionage work. Upon learning this from Dr. ROSENBLIETT, I immediately surmised that SHOYET's work in Paris and Tokyo had probably been on behalf of the Soviet Government, although SHOYET, himself, never mentioned anything about this to me. My best recollection of a description of SHOYET is as follows:

Age:
Height:
Weight:
Hair:
Build:
Characteristics:

40 (1926)
5' 6" or 7"
140 lbs.
gray
slight
wore glasses

spoke English and French (probably Russian)

Peculiar characteristics: high cheekbones and slanty eyes

Although I do not know definitely, it would be my observation that he was born in Russia.

"Relative to AZIA SHOYET, it is my recollection that she was active in the YCL and that she was probably born in the United States.

"Also employed in this printing establishment was a nephew, by marriage of SHDYET, one HARRY TAMER. TAMER was a member of the Communist Party and was an apprentice printer in the printing establishment that printed the "Daily Worker." I have no recollection of his residence other than that he probably

"lived in the Bronx with the SHOYET family. The following is a description of HARRY TAMER:

Age: Height: Complexion: Characteristics: Born: Marital status: 23 to 24 (1926)
51 60 to 70
pale
wore thick glasses (very nearsighted)
probably in the U. S.; Jewish

single.

"I recall that HARRY TAMER had "a mousey look" and was in ill health and, although I am not sure, he probably was suffering from some respiratory disease. I also recall that TAMER was a stamp collector. HARRY TAMER was the brother of another individual who was employed at the Crucible Steel Company in New Jersey, whom I will mention later. It is my recollection that he had another brother, PECYA (or Peter) who was employed at the Waterworks, Oradell, New Jersey.

"It is my best recollection that I saw AZIA SHOYET only on one occasion and I can describe her only as a slight, dark girl.

Worker was owned and operated by one GOLDSTEIN, whom I do not believe was a member of the Communist Party, but who was probably a sympathizer. It is my recollection that this company had a trade name, other than the name COLDSTEIN."

Subsequently CHAMBERS had the following to say concerning the 55th Street apartment:

"I was then (about the end of 1933) introduced to a new headquarters and it is my recollection that I was probably first taken here by ELAINE. As best I can recall, this place was located about one mile from the Brownsville section of Brooklyn. It could be reached by way of the BMT subway system and the apartment was located approximately one block or one block and a half from the subway stop. I recall that this was an apartment house where they had a doorman and a self-service elevator. The apartment which was used as a headquarters was, I believe, on either the fourth or the fifth floor and was occupied by a man and his wife. At first I didn't know the name of these occupants.

1730

"Some time after I had been at this headquarters, the man said to me, "You don't know me but I know a lot about you as you used to work with my brother." It was then I learned that this man's name was TAMER and he was the brother of HARRY TAMER who I have previously mentioned as being employed in the print shop which was printing the "Daily Worker" during the time I was associated with that paper.

"As to the apartment itself, I recall specifically that the living room floor was covered by an oriental rug approximately 9 x 12 and bright red. On one occasion Mr. TAMER told me that the rug had been a present from 'MARK." He also explained to me that MARK had been a Soviet agent in New York City at some earlier date and had subsequently become the head of the Soviet Chémical Trust. It was my impression that the TAMER apartment was an old headquarters for the apparatus and had been in use for some time. This headquarters was never used for photographic work but was primarily used for meetings between JLRICH, FLAINE and me.

"I recall that at one time I also met here an individual by the name of HERMAN (VALENTINE MARKIN) and more will be said about this individual later. I also recall that there was a Russian typewriter kept in this apartment and it was the one which was used by ELAINE to type the Russian letters which were sent back through the communication system, as previously described. I saw ELAINE type a number of letters on this machine and I feel that they were probably transmitted out of the United States over some communication system. However, I had no knowledge of the existence of any such system, as had operated out of the Gay Street apartment. There was also a typewriter here with an English keyboard. I cannot recall its make, but it belonged to the apparatus so far as I know.

"I did not know TAMER's first name but I heard him called by a Jewish diminutive, which I do not remember now, but I believe was something like OSSIA. A description of TAMER follows:

Height:
Hair:
Age:
Pecularities:
Nationality:

Wife:

5' 6", rather pudgy Light

30's (1933 - 1934)

Wear glasses
Probably born in Russia and
educated in the United States

ROSE/TAMER

"At some later time I learned that Mr. TAMER was employed at the Crucible Steel Company in New Jersey. It was my impression that Mr. TAMER's connection with the apparatus consisted only of allowing this apartment to be used by ULRICH and ELAINE for their purposes.

"It is my recollection that ROSE TAMER and ELAINE were very close friends. Although I saw ROSE TAMER on several occasions, I do not recall sufficient about her to provide a suitable description.

occasion ULRICH said that they were going to have a party there and TAMER was to bring the alcohol for the drinks. ULRICH insisted that I come to this party although I did not particularly care to attend. I recall that we began by having several drinks before dinner and then continued drinking after the meal. During the course of the evening ULRICH and ELAINE began questioning me as to my views on the Communist situation in Germany. I remember that I "damned" Stalin's policy in Germany and as a result incurred the displeasure of ELAINE who advanced on me rather belligerently. As a result I pushed her lightly with my hand and she fell to the floor. By midnight everyone was out cold.

"When I woke the next morning I thought that I had ruined myself as a Communist because of my denouncement of STALIN's policy in Germany and my actions toward ELAINE. However, when ULRICH arose he patted me on the back and said, "You are all right, BOB." This action on his part gave me the impression that ULRICH's opinions also deviated somewhat from the Party line. ELAINE, however, did not speak to me for some months thereafter.

"IT recall that Mr. and Mrs. TAMER were also present at this party as was TAMER's mother who was introduced to me simply as "BABUSHKA." She was a pleasant Jewish woman and spoke very little English. I was told that she played some part in the 1905 revolution. This was the first and only time that I ever saw TAMER's mother. I might add that HARRY TAMER, whom I have previously mentioned, was not at this party nor did I ever see him at this apartment. I did not know his whereabouts at this time and in fact I never saw him after my leaving the "Daily Worker."

"It is my impression that the purpose of this party was to get me intoxicated to a point where I would set forth my political views. I believed that this was in connection with the arrival on the scene of an other individual whom I knew under the pseudonym of Herman."

relety of post of the post of

For the information of the Newark Office, ULRICH mentioned above has been identified by CHAMBERS as his superior in the apparatus during that period. ULRICH's true name is unknown. It appears, however, that he is the same as the person known by STITZ as WALTER. ELAINE is ULRICH's wife. HERMAN or VALENTINE MARKIN is believed to be identical with the Soviet agent ARTHUR WALTER who died under mysterious circumstances in New York in 1934. No photographs of these Soviet agents are available.

The following suggestions are made in connection with the interviews of the TAMER brothers:

- 1. Ascertain whether they ever know or heard of WHITTAKER CHAMBERS and obtain all information concerning him which they are in a position to furnish. A photograph of CHAMBERS, taken in 1931, is being transmitted herewith.
- 2. Ascertain all information concerning TAMER and SHOYET families and their activities, past and present.
- 3. Ascertain all information concerning the use by Soviet espionage of the TAMER apartment at 1653 55th Street, Brooklyn.

If it appears that the TAMER brothers are cooperative and have considerable knowledge of Soviet Espionage operations, consideration should be given to a subsequent interview devoted to obtaining this information in detail, at which time photographs of known Soviet agents can be made available.

It is pointed out that while HARRY TAMER's activities are unknown to CHAMBERS subsequent to 1933 or 1934, he may have been connected with the apparatus to a greater degree and for a longer period than the information furnished by CHAMBERS would indicate. Standard form no. 64

PERJURY

ESPIONAGE - R

By teletype February 1, 1949, the New York Division has requested wiss Gendy authority to interview Harry Tamer, who, according to Chambers, was a member of the Communist Party, and employed as an apprentice printer in the printing establishment that printed the "Daily Worker" during the period 1926 and 1927. brother, Paul Tamer, has been interviewed by the Newark Division concerning the use of his family apartment at 1673-55th Street, Brooklyn, New York, for espionage activities in approximately 1933. Paul denied knowledge of espionage activities on

Chambers stated that he had never seen Harry Tamer in this apartment, and never saw him after he, Chambers, left the "Daily Worker." (New York letter dated January 28, 1949.)

the part of his brothers, Harry or Joshua, as well as Sam Shoyet, a relative by marriage to Harry Tamer. Shoyet, who was assistant foreman of the printing company

where Harry was employed, also lived at the above-mentioned apartment.

ACTION =

Harry Tamer suffers from a cardiac condition. From available information, it does not appear that he can give information in addition to that which his brother, Paul, may possess. Paul was ill at the time of his interview, and a further interview is planned after he recovers. In view of this and Harry Tamer's cardiac condition, it is not recommended that he be interviewed unless additional circumstances make such interview appear advisable and necessary. If you agree, there is attached herewith a teletype to the New York Division, advising that interview with Harry Tamer is not desirable at this time.

1949~

Kisseloff-4579

6 I MAR 17 1949

Mr. Tolson

DATE: January 25, 1949

L. B. Nichols

SUBJECT:

Congressman Judd of Minnesota called. He said he wanted to let his hair down and get some advice. A woman who is a very close friend of his, quite responsible in Democratic circles, called him to say that Mrs. Ernest K. Lindley has been trying very hard to get into the organization and that one of the other women had come to her and said that Mrs. Lindley was a Communist, that this person has seen Mrs. Lindley's Communist Party card and, accordingly, this woman wanted guidance.

Judd stated it was one of those things where he had to try to help her and he wondered if we could give him any guidance. I told him that I did not know exactly how we could be of any assistance in view of the confidential character of our files, but if there were any leads that we could give him after checking I would call him back.

- We, of course, made an applicant investigation of Mrs. Lindley in the early days of the war and it would appear that she was a sponsor of the League of Women Shoppers and the Washington Committee for Democratic Action. There is no indication that it was ever alleged that she was a member of the Communist Party. Ordinarily in a case like this we would be inclined to state one way or the other. The thought occurs to me that we should tell the Congressman for his own guidance that our records would not sustain any such charge and suggest that he check the records of the Un-American Activities Committee, where Mrs. Lindley is listed both as a Sponsor of the League of Women Shoppers and as a member of the Washington Committee for Democratic Action.

In the course of the conversation, Judd mentioned the Alger Hiss case and stated he had run into Hiss years ago when he was a member of a sub-committee of the Committee on Executive Expenditures and he did not pay too much attention until some time later when in a conversation with Peurifoy of the State Department, Peurifoy stated that the thing that worries him is people like "Hiss, who have never been suspected." This was a confirmation in Judd's mind of Hiss. The conversation with Peurifoy occurred in 1947 after Hiss had left the State Department.

Judd stated that when Hiss was being considered for the Carnegie Foundation or shortly after his appointment he sent a letter to John Foster Dulles regarding Hiss' alleged subversive activities. Dulles replied that he had asked Hiss about his subversive activities and Hiss denied them, that Dulles could not convict anybody on no evidence. Judd replied to Dulles the he felt he had fulfilled his obligation when he put Dulles on notice.

RECORDED 133 74- /3 5-1 / Kisse Joff-4580

CLUCAL COP TILED IN

ENDUM (See page 2)

Since dictating the above, Congressman Judd called me. I told him we could not be of any assistance to him, that for his strictly personal and confidential information our records do no substantiate his information and he might want to check with the Un-American Activities Committee. He said that he has since checked further and he has satisfied himself that Mrs. Lindley is not a Communist.

Office Memorandum • UNITED STATES GOVERNMENT

TO

THE DIRECTOR

DATE: December 28, 1948

FROM

D. M. LADD

SUBJECT:

JAY DAVID WHITTAKER CHAMBERS, Was

PERJURY;

ESPIONAGE - R

M

Reference is made to my memorandum of December 10, 1948,

relating to a report to the effect that the Bureau had been investigating

Alger Hiss for the past ten years. Reference is also made to a memorandum

addressed to the Attorney General dated December 13, 1948, regarding a story

that the press had picked up to the effect that "when the former Secretary

of State Byrnes heard ugly rumors going around regarding Hiss, he referred

the matter to the FBI who cleared Hiss." You inquired as to why the contents

of paragraphs 5 and 6, page one, paragraphs 4 and 5, page three, and

paragraph 1, page four, contained in the memorandum dated December 10, 1948,

were not included in the memorandum to the Attorney General.

The reason that certain information to be found in the memorandum of December 10, 1948, was not included in the memorandum to the Attorney General of December 13, 1948, is that an effort was made to outline to the Attorney General the personal contacts of Secretary of State Byrnes or other contacts originating from him with reference to the Hiss case to show that these contacts of Secretary Byrnes would not substantiate any claim that his contacts had resulted in clearing Hiss. The emphasis in the memorandum to the Attorney General was placed on responses and action taken with respect to the requests and calls of Secretary Byrnes rather than to outline in a complete manner all of the information which the Bureau had furnished to the State Department over a long period of time.

ESPIONAGE - R

SAC Gleason of New Haven called at 5:20 P.M. on January 26, 1949, and referred to information received from the New York Office during the past several days reflecting additional data supplied as a result of an interview with Chambers regarding Chambers' activities in the Connecticut area during 1933 and 1934. Mr. Gleason referred specifically to the reports prepared by Special Agent A. D. Horn of the New York Office dated May 2 and July 3, 1934, entitled "Joseph Jiuletti, was., Frank W. Draminski, Dudley Chapman, Clayton B. Darrow, Zachary Baranoff, Espionage."

Mr. Gleason advised that the Mariano mentioned in the teletype from New York is probably identical with Joseph Jiuletti, who was employed by the Electric Boat Company, New London, Connecticut, in 1933 and who was also supposedly taking plans from that company and giving them to Chambers for the purpose of having them photographed. Jiuletti left New London and worked at the Portsmouth Navy Yard, Portsmouth, New Hampshire, from 1943 to 1946. However, he is now back in New London.

Mr. Gleason stated that the question arose as to whether interviews requested by the New York Office in its teletype should be conducted or whether they should be held up in view of the possibilities that the various individuals mentioned may still be engaging in espionage activities. I told Mr. Gleason that before this question could be answered it would, of course, be necessary to be entirely familiar with what our files contain on these individuals and ascertain as to the last date of any investigation conducted of them. In view of this I suggested that he submit to the Eureau and the New York Office information available to the New Haven Office in order that this question might be resolved.

RR: COMMICT PARTY, USA — EXICT TO ESTABLISH A LIGAL STATUS OF COMMICT FARTY INTERNAL COUNTRY — C

RE: FRATELIN VICTOR PETO, Mas.

Door Cirt

Re Entel to El Paso and New York City dated January 27, 1949. FRANKLIN VICTOR KIND was interviewed at Albuquerque, New Moxico, on January 31, 1949, at which time he furnished the following information:

As a prodication to his interest in Commist Party matters, 1230 related that from the ego of ten years circumstances were such that he was forced to more or loss care for himself and his prime objective at that time was securing an under-graduate education in some university. This under-graduate study was obtained at the University of Colorado from which he graduated in 1932, receiving his A. B. Dogress. Its explained that he ranked fourth in the creduction class at Colorade. was a Thi Beta Reppa; finished in oloyen quarters instead of twelve and graduated our Laude. He explained that he received this education and distinction through hard work not only in the classroom but outside for his livelihood. Upon graduation he received a fellowship to study at the University of Virginia. This followship amounted to \$350. a year. He received this fellowship for a period of three years, homely, 1932 through 1935. During this period at the University of Virginia he was associated with the observatory where his followship required him to teach some classes and to do cortain other work requiring Icag hours of colestial observation. REW states that it was during this time that he became conscious of the economic officetion prevailing throughout the country. This was forceably brought to his own attention when he received the small enount of the followchip, an compared to the approximate \$7,000, annual income or the director of the observatory. Into made comment of the fact that the director in recolving this enormous calory oftentimes had teachers in his, EEO's, some financial status denduct classes which the director himself should have conducted. He recalls particularly a course in

colostial mechanics which REED particularly wanted the instruction of the director, which instruction he got from some lesser instructor. As a result of these feelings, NEEO stated that he became year much dissatisfied at the observatory during his first year and tried for followships at Yale and at California, which followships he did not receive. He returned to the University of Virginia during the school year 1933-34, at which time the offects of the depression throughout the United States still proved on his mind. He stated it was during this time that he gave conscious thought to the unfairness of the economic situation then existing in the United States. This resulted in his research in economic reading and he started reading liberal socialist articlos. During his third year, 1934-35, at the University of Virginia he continued his reading which eventually lead to books by H. G. MILS. HORMAN TEOMAS, SCOTT HEARING, and from those to MARX and LIMIN. He stated he had studied the Commist Linifesto and had read the fivevolume work by LEIM, together with numerous other pamphlots and booklets. He stated that it was during this last year at the University of Virginia that he beceme indoctrinated with the theories of communism and was ready to do something to bring about a change in the economic situation. Specifically, he thought the Communists had all the answers to the situation.

In the first part of 1935, and while at the University of Virginia, MINO stated that he read in the newspaper that some organization. likely a "Torkers League," was being evicted from its quarters in Richmond, Virginia, because someone had alleged this organization was actually the Comminist Party. He stated he went to the place mentioned in the newspaper and asked to see the Party Organizer. On seeing the Party Organizer, he explained to him his situation and prior reading and stated he wented to join the Communist Party. The Organizor at that time, being a little skeptical, according to RENO, had RINO fill out an application blank and both agreed that he would use the nend LANGEGIARY. REIO stated that in regard to this nemo the first name of LANCE is definitely correct but that he does not renember for sure that he used the last name of CLARK. RENO states that sometime between this visit and his next visit with this Party Organizer at Richmond, the Party Organizer celled on REMO at the observatory at which time they had further discussions relative to his membership. On REMO's second visit with the Party Organizer in Richmond he discussed the possibility of doing semething in the Communist Lovement. The Organizer asked him if he could do enything on the campus to which NEXO declined, stating that he was of the opinion that there was no

opportunity for him to advance the cause of Communism on the campus of the University of Virginia. DETO also stated that to the best of his knowledge and belief there was no branch of the Communist Party on the campus of the University of Virginia.

Following the end of the school year in 1935, Rino stated that he contacted the Party Organizer in Richard relative to doing some work for the cause and the Organizer stated that he could help teach a group of Colored people on the theories of evolution. Since there was no renumeration in this job and since Rino had no income whetse-ever after he left the campus of the University of Virginia, he decided against this and took a job at a summer camp near Charleston, west Virginia, as an instructor in mood work and general handy man. Elio stated he did no Communiat Party work while of this summer camp, the name of which he did not recall. At the end of this summer camp RINO went to Kashington, D.C., where he regided with his brother, Philips INO.

On arriving in Washington Pallo's first concern was to court employment. He made several calls at personnel offices and eventually received employment with the WPA. Prior to the receipt of this employment, RENO states that he visited Party headquarters in Machington. D.C., and eventually contacted the Farty Organizer who used the Party name of ROBERT E. PAY. This contact was in the open Porty offices and the Porty Organizer told 1900 at that time that if he was coing to get a Government job to stay away from Party hasdquarters and open Party neetings until he had received an appointment. He also instructed into that after he received an appointment to contact hin and he would see what 12110 could do relative to Party offeirs. IMO stated that after he received an appointment in the Project Control Division of the MPA sometime during the early fall 1935, he recordated RAY who introduced him to SYMEX CONOCTION. RENO described RAY as the Party Organizer and Concernor as the Organizational Secretary. RAY told RENO not to going to the Farty Offices, nor to any open motings since they have a new assignment for RENO and RENO should talk with ESKOSTROK only. Reno stated that he and schostrok first made arrangements for contact with anch other, which arrangements more as follows:

⁽¹⁾ Contact by prior agreement, (2) Telephone call from RENO to COMOSTROK at home, (3) Contact with RENO at his room by ECHOSTROK, or (4) A call to the Party Office by RENO using the many BETERTY and asking for SYDNEY.

EP 100-4528

RENO stated that the first assignment given to him by SQHOCTROK was to write some study outlines for Y.C.L., which he did. SINCETTER then discussed with REEO the possibility of making contacts in military installations around Washington, D.C. REIO explained that the term "contact" had a specific meaning to him as a Communist. In this sense a "contact" was envone whom he (RENO) could continue to talk with. A good contact would be a person he could continue to talk with and who showed some sympathy for some or most of the basic ideas of Commism. An excellent contact would be an individual who was definitely. a Communist sympathizer. An even better contact would be, of course, another member of the Communist Party, such as the relationship that existed between him and SCHOCTTOK. In regard to this assignment; CONCERNE stated that it was very important to the cause of the Party and particularly the Party folt that in order to have a revolutionery situation, there must be a foothold in the Armed Forces so that if the revolution comes, the Armed Forces could not be used offectively to defeat it. It this point REEO explained that the revolutionary situation consisted of the following:

(1). A breakdown in the present economic situation,

(2) An organized formation of revolutionary sontinent in the working class,

(3) A foothold in the Armed Forceis.

IEEEO made it clear that at this time he and SCHOSTICK did not discuss the various aspects of the revolutionary situation but he, IEEO, assummed. that SCHOOTING from his readings and communict literature was as familiar with this aspect of Communism as he himself was. ILEO stated that he believed this assignment started around December, 1935. To fulfill this assignment he first secured a map and checked point locations of Forts and military installations near Mashington, D.C. He stated that he would then go on Saturdays and Sundays to the civilian settlements just outside a particular fort and find the logical place or concentration of soldiers or sailors, as the case night be, where he could be in a position to approach some of them. He stated his method of approach was to first feel out a particular soldier on his thoughts about the 221. per month pay. If the soldier seemed in a conversant mood, he next secured his background and next attempted to discuss discrimination in the Armed Forces. During these discussions he would also attempt to find out whether or not the particular individual was or had been a member of any union. RENO stated he did this until the spring 1937. All, during this time he sow SONOCIECK about every week or so. He stated

he contacted the following military installations hear Mashington, D.C.: Fort Meyer, Fort Belvoir, quantico, Virginia, Fort Mende, Laryland, Front Royal, and the water front at Washington and Beltimore. RIO stated that during this time he also wrote leaflets for mimeograph and distribution by the Party.

During the Spring 1937. Rillo stated that SCHOSTECK exhibited a desire to terminate this assignment and that he and REW had discussions relative to its importance in creating the revolutionary situation. At this point NEXO quoted LEXIII on the effective use of legal and illegal operations. It was at this time that RINO and ECHOCTECK discussed this assignment as an illegal operation. However, SCHOSTECK's argument for the termination of this assignment was that the Party's objectives at that time were in trade unions and mass organizations with a united front objective and SCHOSTECK stated that an incident. in this illocal operation night have its effect on the Party's united front tactics. Raio stated that SCHOSTEVK also reminded him that the assignment had not been successful. Alto also stated that he folt at that time that the assignment should continue even though it was an illegal operation and stressed that point to the extent that SCHOSTECK made the remark to him that he would have to turn RENO over to the Control Commission of the Communist Party if RENO did not terminate the assignment according to SUHOSTICK's wishes.

NEW stated that this military assignment was terminated during the spring 1937, at which time he decided he might go to Spain to fight for the Loyalists. He discussed this with SCHOCTOK and he believes that a man from New York came to Washington and discussed the possibilities of REGO's going with him. REMO stated that there was some hitch in the arrangements in that transportation had not been arranged for and other natters and he finally abandoned this idea. NEWO stated that he terminated his employment with the WPA during the late spring 1937 and since this employment was terminated he took several Civil Service. examinations for other Government employment. Relative to his Communist Party activities at this time, he stated he went down to the water front at Baltimore and contacted PADDY HELAN who was represented as being the water front top man of the Communist Party. RENO believes he also made a trip to the mater front at Philadelphia and met an individual by the name of CARD RESVE. While at Baltimore, RESO stated he sold the "DAILY MORKER," a time or two and also was on a picket line at the Italian Consulate. One day while waiting for PADDY EMPLAY in his room at the water front in Baltimore, an individual came in the room who apparently knew RENO's Party name and knew of the anti-military assimment that RETO had just terminated. This was the first meeting of

NEXO and the unknown individual, identified as XVIIIII Approximately six weeks prior to REIO's employment at Aberdeen Proving Grounds, REIO received a notice of availability for this position at Aberdeon. On receipt of this notice RENO contacted LENNE at the water front in Baltimore and told him of this expected employment. At that time EMNIE told him to take the appointment and the Party would consider an assignment for RE10 if he should get this appointment. Approximately ten days before commencing to work at Aberdeen Proving Grounds. JENO stated he recoived an appointment at Abordeen Proving Crounds and he inmediately contacted EMRIJE. RENO could not furnish details of how he contacted BERNIE but he thought it was by prior arrangement at the last meeting. BINNE instructed REW at this meeting that he should immediately nove to other quarters, not contact any other Party member. and take no other Party assignment. It was at this meeting that definite arrangements were made for NENO to go to Philadelphia where EERNIE wanted him to meet an individual with whom he would be dealing. These arrangements were that DENO would purchase a tickot from Eashington to New York at least two days ahead of departure time and on the departure date REVO would walk around the station several times and time himself so that he would step on the train immediately before its doparture.

RENO would then proceed to Philadelphia and would leave the train at that point and would proceed to a residential area and walk around peyoral blocks to be sure he was not followed, and then would take a street car to a designated theater where he would be not by EXENTE. In this respect, RENO furnished identical details of the meeting with HERNIE and of the subsequent meeting with WHITTAKER CHAMBERS, who was known to him as "CARL", as he has furnished on previous interviews.

At the meeting of CHAIBERS. RENO reiterated that CHAIBERS asked him "Do you know what this 18?", to which RETO replied "... It's espicage." to which CHAMBERS stated "... It would be better to say it's intelligence work. ".

RENO described his dealings with HITTAKER CHAUDERS stating that those dealings were not too pleasant as he always had a fear of CHALDERS and the G.P.U. The mention of the G.P.U. was made by CHAMPERS at the time the JULIETTE STEJART FOYNTZ, or PONITS Case made the newspapers. REIO stated this was the case of a woman whose body was found floating in the river and there was some indication that the night have been o plent in the Commist Party by the U.S. Imagration and Naturaliza-,740 tion Service.

REMO stated that he stopped his espionage activities in the summer of 1936, the approximate cause being that he had an appointment with WHITIMEN CHAMBERS on a particular day which appointment CHAMBERS did not made. By prior arrangement, REMO should have made this appointment at the same place at a specified later day, but REMO himself did not make this subsequent appointment. He stated this was occasioned by his lack of interest in the espionage activity over a period of two or three months and when CHAMBERS did not much his appointment he felt this was a good time to get out of all of it. This lack of interest was occasioned by CHAMBERS criticism of the material furnished and also somewhat by fear, as heretofore mentioned.

MINO states that from that point on to the present time he had had no activity whatsoever with the Communist Party or any individual known to him to be connected with the Communist Party.

At various times during the interview RENO expressed concern regarding prosecution of him because of incorrectly stating on various Government applications and other forms that he was not end never had been a member of any organization favoring the overthrow of the Government of the United States by force and violence. NENO stated he had filled out numerous such forms in the course of his career as an employee of the United States and was of the opinion that the last such form completed by him was within the past few years and night not be barred by the Statute of Limitations. In this respect, he made mention of the fact that he might be prosecuted for treasen but it was his understanding that the basis for such prosecution would have to have been committed during war time. He also mentioned the fact of possible prosecution of himself for committing espiciage but he felt that this would be barred by the Statute of Limitations.

During the entire interview it was noted by the interviewing Agents that RENO has a broad background of the basic destrines of Communication.

NENO himself stated that this broad background of the fundamental principles of Communications was obtained by him through extensive reading, however, the practices of the Communist Party in the United States he mined from personal experience in various Communist activities.

RIIO was asked whether or not he would be willing and available to appear as a witness in the trial of the Commitst Party leadership in Now York City providing the United States Attorney desired his testimony. In response, RIIO stated he would not be willing to testify for the

EP 100-4528

reasons of (1) personal fear, (2) personal adverse publicity, and (3) he felt that by his testifying the Car Department would receive more adverse publicity than if he did not testify.

As has been previously set forth, 2000 cave numerous indications of understanding thoroughly the basic doctrines of the Communist Party. He was questioned in considerable detail regarding his understanding of the revoluntionary character of the Communist Party and his remarks: have been summarized previously in this letter. 2010 stated definitely that he formerly believed that the coming of a revoluntionary situation in the United States was not only inevitable but desirable and that he was then willing to do enything he could to help to bring about this revoluntionary situation. Throughout the interview NEWO stated repastedly that he was unwilling to testify in the trials of the Communist Party leadership. It is the understanding of the El Paso Office that only cooperating witnesses are being subpoensed and for this reason RENO was not questioned regarding his knowledge of the basic doctrines of Commiss step by step, as set forth in the brief. In the eyent that this assumption is erroreous, it is requested that you advise me promptly and RENO will be requested to explain his understanding of the basic Communistic doctrines in detail. It should be noted that leads in the WHITTAKER CHAIDERS Caso required on additional interview with RENO, which interview is presently scheduled for February 7, 1949.

As has been indicated heretofore, RENO, according to his statements, arrived at his knowledge of and sympathy with the basic doctrines of Communism by his own study of Communist literature, principally the works of LENDS. No one, he claims, gave him any instruction in this connection and he always felt that he had a far better knowledge of Communism than the Communists with when he had contacts. The practices of Communism that he learned from experience in Communist Party activities had to do with how to avoid surveillances, the practice of developing contacts in the Armed Forces, the use of an alias, the need of extreme secrecy, and the acknowledging of the use of illegal activities.

Throughout the course of the conversations with RETO, the interviewing Agents observed that RETO was extremely nervous in his deamedror, that he lacked the ability to express himself adequately, except after three or four different methods of phrasing, and that his enunciation

BP 100-4528

was poor, making it extremely difficult to understand him. In view of all of this, coupled with the fact of his physical disability, it is not felt that he would make an effective witness.

Very truly yours,

D. K. PROTTI

INTERNAL SECURITY - R Attention: FBI LABORATORY

Re letter to Director from Washington Field dated 1/28/49.

Information obtained from Confidential Informant indicated that THOMAS and ROBERTA FARSLER may be involved in this case. The FANSLERS are brother and sister-in-law, respectively of PRISCILLA HISS, wife of JALGER HISS. ROBERTA divorced THOMAS, FANSLER in 1941 and married JOHN ALFORD in 1945. JOHN and ROBERTA ALFORD have been on the faculty of the Rhode Island School of Design in Providence, Rhode Island, since the fall of 1945.

MAX SULLIVAN, president of the Rhode Island School of Design, advised he has known ROBERTA ALFORD since 1938 and she had been employed by the Metropolitan Museum of Art, New York City for about fifteen years prior to coming to Rhode Island.

Attempts are being made to determine the whereabouts of the FANSLERS since 1937.

The following documents were obtained from MAX SULLIVAN and are being enclosed herewith. They are to be returned to the Boston Office upon completion of appropriate examination by the Laboratory.

- 1. Curriculum Vitae (Life Background) of JOHN ALFORD.
- 2. Letter to MAX SULLIVAN from Mrs. JOHN ALFORD (Bobby) dated 8/11/45.
- 3. Letter to MAX SULLIVAN from JOHN ALFORD dated 8/9/45.
- 4. Letter to MAX SULLIVAN from JOHN ALFORD, dated 8/6/45.
- 5. General outline on "Art and Society" by JOHN ALFORD.

It is requested that Specimens 1 through 5 becompared with specimens Q6 through Q69 or Q5 of instant case.

MAX SULLIVAN advised that white specimens 3 and 4 are on the letterhead of the University of Toronto, Canada. JOHN ALFORD was in the United States at that time.

Enclosed herewith is one typewritten specimen which should be compared with the known specimens in this case. It is a letter written on the stationery of the Carnegie Endowment for International Peace. This letter is dated October 7, 1947, and is addressed to the New/York Telephone Company, New York City, and signed, "Yours truly, Alger Hiss".

At the conclusion of the examination of this document it is desired that the original be returned to this office as it was necessary to subpoena it from the New York Telephone Company and it is to be returned to them in the shortest possible time.

INTERNAL SECURITY - R

Reference is made to Bureau letter dated January 17, 1948, copy to Miami, in which this office was requested to interview ROBERT RADOVAN and ascertain the complete details concerning his finding a black book purportedly belonging to one KARZOV of the Russian Bible Society, 1400 New Hampshire Avenue, N. W., which book contained among others the name of AIGER HISS.

ROBERT RADOVAN was interviewed on January 27, 1949 and stated that in the month of June, 1948 while residing at 1400 New Hampshire Avenue, which incidentally is also a rooming house, he picked up a black book in a telephone booth. Although he had good reason to believe that it belonged to KARZOV, he did not return it to him but stated he kept it out of curiosity. Incidentally, RADOVAN, who is only 24 years of age, is presently unemployed but appears to be supplied with funds. He stated he originally came from Chicago and came to Washington on way to Columbia University in New York but never went to Columbia. Instead he studied the hotel business at the Lewis School for Hotel Training in Washington. He stated he has been employed in the Wardman Park Hotel as a mail and room clerk. He now claims that he is going into the taxicab business as a fleet owner.

RADOVAN stated at the outset of the interview that he was undecided whether he would cooperate with the FBI inasmuch as he had been advised by others whom he refused to name to turn the book over too the House Committee on Un-American Activities. RADOVAN stated that he had been advised by others that the FBI would do nothing with the book and the information would only go in the files with no action taken. He further advised that he approached a Washington newspaper which he later named as the Washington Times Herald, with the story and that the Times Herald offered to pay his expenses to Miami to recover the book provided the Times Herald would have the exclusive story of any news value. He stated that he was further advised by the Times Herald that any further monetary remuneration would be determined after the book had been located. After some discussion RADOVAN agreed to cooperate with the Bureau and stated that the book is presently in the possession of one GEORGE SENFT, who is presently in Miami or Miami Beach.

EFH:nek 74-94

cc: Miami

INDEXED - 66

Kisseloff-4614

FEB 10 1949

January 28, 1949

RE: JAY DAVID WHITTAKER CHAMBERS INTERNAL SECURITY - R

RADOVAN stated that SENFT is a personal friend of his and both of them went to Miami on a Greyhound bus and in Maimi shared a room together. Shortly thereafter, RADOVAN stated that he traveled elsewhere and upon his return to Miami found that SENFT had moved to another address which RADOVAN has not at the present been able to secure. According to RADOVAN, SENFT left his forwarding address with the landlord in Miami who lost the information. Accordingly RADOVAN stated that SENFT is in possession of all of RADOVAN'S possessions, including clothing and the little black book in question. RADOVAN returned to Washington and presently resides at the Belmont Hotel, 1309 17th Street, N. W.

RADOVAN described SENFT as being either six feet or six feet one inch in height, approximately 30 years of age, 165 pounds, light complexion, thinning blond hair. He has blue eyes. He further stated that SENFT is married, his wife HENRIETTA SENFT; and they have a daughter three years of age known only to RADOVAN as Cookie. He further described SENFT as being a very neat dresser with a light beard and is a great follower of the horses and is frequently at the Florida race tracks. RADOVAN stated that SENFT is known to most jockeys in the country and to many horse race owners. SENFT'S father is a postal mail carrier in Reading, Pennsylvania and according to RADOVAN his father would be the most logical person he would correspond with. RADOVAN further stated that SENFT'S present whereabouts may be known by one JUANITA GARRETT, who is also known as MABIE HORNE, who lived at 11123 Biscayne Boulevard, Miami. RADOVAN further advised that SENFT is an operator on a National Cash Register 2000 Machine which is used mainly by hotels and large department stores; that according to his information, only 12 such machines are in use in Miami; and that the National Cash Register Company in Miami would be able to furnish the names of the establishments. RADOVAN stated that a contact with these establishments would undoubtedly give the employment of SENFT.

Concerning the book itself, RADOVAN stated that he paid no attention to the name of AIGER HISS but later recalled the name based upon newspaper publicity as a result of the HISS - CHAMBERS controversy. RADOVAN stated that the book also contains the names of other individuals whose names have appeared in the public press growing out of Senate or House Investigative Committee hearings. He further stated that many names in the book are those of prominent persons whom he did not mention. Many of the names are followed by some sort of a code.

The Miami Office is requested to attempt to contact GEORGE SENFT and secure from him the book in question. An interview with Mr. KARZOV of the Russian Bible Society will be held in abeyance pending the outcome of the investigation in Miami.

FEDERAL BUREAU OF INVESTIGATION

Form No. 1 FILE NO. 74-47 THIS CASE ORIGINATED AT NEW YORK REPORT MADE BY REPORT MADE AT DATE WHEN MADE CINCINNATI, OHIO 1/26/49 JAMES L. McGOVERN NJB CHARACTER OF CASE PERJURY JAY DAVID WHITTAKER CHAMBERS, was., etal ESPIONAGE - R INTERNAL SECURITY - R SYNOPSIS OF BACTS Examination of photostatic copies by Engineering Division, Wright-Patterson Air Force Base, Dayton, Ohio, of documents found in possession of FELIX AUGUST/INSLERMAN made, state documents relate to XF-12, XP-47J, P-47 and XP-69 aircraft produced by Republic Aviation Company. All projects were classified in their entirety at their inception but declassified as projects by November, 1945. Performance data and military characteristics of each plane, however, still regarded as confidential by Engineering Division. Documents examined, however, do not relate to performance or military characteristics. AIGER and PRISCILLA AISS not known to GERTRUDE E. MARTI. Dean R. BISHOP, National Secretary, Omicron/Delta Kappa Fraternity, has no correspondence from ALGER HISS. - RUC -REFERENC Washington Field teletype, December 27, 1948 Cincinnati teletype, December 28, 1948 57 Baltimore teletype, January 6, 1949 Cincinnati teletype, January 7, 1949 88 Bureau letter, January 12, 1949 AT DAYTON, OHIO IRVIN W. ROHLFS, Command Provost Marshal's Office, Wright-Patterson Air Force Base, Dayton, Ohio, advised that questioned documents relating COPIES DESTROYED 96 DEC 16 1964 COPIES OF THIS REPORT RECURDED- 5 - Bureau (Encs.) (Reg. Mail) 3 - New York (1 to T. J. DONEGAN, special assistant to Attorney General) Cincinnati Kisseloff-4621

to aircraft produced under Air Force contracts would probably be evaluated by members of the Engineering Division at Wright-Patterson Air Force Base. In particular, the person to evaluate questioned documents would be the project engineers who supervised the various projects to which the documents relate. ROHLFS advised that documents relating to Air Force projects to a great extent have been declassified since November and October of 1945. Information concerning the classification of certain projects as to whether they are "unclassified", "restricted", "confidential" or "secret" could be secured from the Operational Intelligence Office, Wright-Patterson Air Force Base.

R. W. KELLHOFER, Engineering Division, Wright-Patterson Air Force Base, Building 14, Area B, Dayton, Ohio, upon examination of the questioned documents advised that these documents related to the following Air Force projects for which Republic Aviation Company held contracts: the XF-12, the P-47, the XP-47J and XP-69. With regard to the XF-12, Mr. KELLHOFER advised that LAVERGNE COOK was the project engineer on this particular project. With regard to the P-47 and the XP-47J, he stated that RAIPH FOULGER was the project engineer and J. R. AUSTIN was his assistant. They also would have information concerning the XP-69 which was an experimental plane and never reached the production stage.

LAVERGNE COOK, Assistant Chief, Cargo Branch, Engineering Division, Wright-Patterson Air Force Base, Dayton, Ohio, advised that he was formerly the Chief while an officer in the United States Army Air Forces and, subsequently, upon becoming a civilian, Assistant Chief in the Cargo Branch of the Engineering Division. As Chief and also as Assistant Chief in the Cargo Branch, he advised that he was the project engineer on the XF-12 airplane which was designated Project No. MX-495.

He advised that the XF-12 was a high altitude, four motor photo-reconnaissance plane, the contract for which had been let to Republic Aviation. Company of Farmingdale, long Island.

Mr. COOK examined all of the documents forwarded this office by the Bureau by letter dated January 12, 1949. He stated about half of the documents related to the XF-12 with particular reference to cabin air control and cabin pressurization systems, the anti-icing of wing and tail assemblies, cabin heating systems, oxygen supply systems and fire extinguisher systems.

The information, he stated, in these documents, related to the above systems, would give a fairly complete picture of the above systems as contemplated for use in the XF-12. However, with regard to the entire plane or the project itself, this information standing alone would be of little value in so far as the entire plane itself was concerned.

As the information concerning the above systems would be of value only in this particular project or this particular plane, the information

standing alone regarding air pressure, oxygen supply systems, fire extinguisher systems, cabin heating and cabin air control in the absence of information regarding the balance of the plane would be of little value. However, although the information would be of little value to assist an enemy nation in manufacturing a plane of this design, the information contained in these documents would be of value to an enemy nation contemplating sabotage of the production of this plane. This is true, he stated, because the documents disclose the manufacturers of the component parts to be installed in the XF-12 and their location. Furthermore, the information indicates the manner of installation of these systems within the completed plane.

Mr. COOK stated that the XF-12 or the MX-495 project was confidential at its inception and also during the period as indicated by the dates of the documents examined by him. Therefore, as the entire project was itself confidential every piece of information and every document related to the project in its entirety would in itself be confidential

Mr. COOK produced a document entitled "Security Classification Chart, December 15, 1948, Report No. CD356, heading A.M.C. Wright-Patterson Air Force Base." This report or document is published by the Intelligence Department under the supervision of Colonel H. M. McCOY. Regarding the MX-495 project, which is the XF-12, the Security Classification Chart indicates that the only classified data as of December 15, 1948, relating to the XF-12 is as to the exact performance and characteristics data which is "Confidential" and internal and break-down photographs, dimensions and weights which are classified as "Restricted."

Mr. COOK advised that none of the documents examined by him relating to the XF-12, would fall within the definition of classified data as of today, as none of the documents relate to either the performance, characteristics, dimensions, weights or photographs of the XF-12. However, all of the information contained in the documents was "Confidential" as of the dates appearing on the documents themselves.

The following documents examined by LAVERGNE COOK were stated by him to relate to the XF-12:

File entitled "Fixed Fire Extinguishing Equipment Calculations"
File entitled "Equip. - Fire Extinguishing - 6"
Document entitled "XF-12 Mock-up Board Requests" dated July 5, 1944,
an inter-office memorandum of the Republic Aviation Corporation
prepared by H. E. BURKE

Inter-office memorandum of Republic Aviation Corporation, dated April 29, 1944, prepared by C. P. STAUDINGER, subject - "Major Assembly and Installation Drawings for the XF-12 Airplane." This is a list of Republic's assembly drawings

Ž

and installation drawings. COOK stated it was of no value standing alone.

Air Force Materiel Command, Engineering Division memorandum dated August 11, 1944, subject - "Mock-up Inspection For Republic XF-12 Airplane." This document COOK stated was the Air Forces' writeup of its inspection of the mock-up or pilot XF-12 airplane. It contained the recommendations and suggested changes to be installed in the XF-12. As of the date appearing on the document this would be considered "Highly Confidential" as it contained all of the recommended changes following the inspection of the XF-12 airplane.

Document entitled "Government Furnished Equipment Required For XF-12 Airplane" bearing the penciled notation "INSLERMAN, 8-29-44." This is a list of equipment to be used in the XF-12 airplane. Mr. COOK stated it would be of value if accompanied by a drawing of the component parts listed in the XF-12. Standing alone, however, although it would have been "Confidential" as of August 29, 1944, because it related to a confidential project, it would be of little value.

Document entitled "A Simplified Graphical Method For Determining Pressue Losses in Ducts and Duct Elbows For Air at Various Temperatures and Altitudes" and document entitled "Elements of Air Scoop Design" contain material which could be secured from the Stewart-Warner Corporation, Heater Division, Field Engineering. This could be secured from the Stewart-Warner Corporation commercially by any one seeking the information. Apparently the information contained in these documents was used by the XF-12 engineers in planning their heating system. It is of no particular value and, of course, is not classified.

Three documents which he described as diagrams of the XF-12 tail assembly, showing the area of the tail assembly, although relating to a "Confidential" plane would be of little value in the absence of further information concerning the entire plane.

A file containing a break-down index entitled "Mock-up, Information Required, Oxygen System, Fire Extinguisher, Equipment Furnishings, Super-charging - Sound Proofing - Heating and Ventilating, and Anti-icing." This file relates, according to Mr. COOK, to the equipment to be used in the systems to which the above labels relate. The information concerned in the various sections of this file would have no value in the absence of complete information concerning the entire plane. However, the information did relate to a "Confidential" project as of the dates appearing on the various documents in this file.

File labeled "Sketches." This file contains sketches which pertain to cabin pressurization and with particular reference to the XF-12 airplane.

File entitled "Superch., Heat., & Vent., Anti-icing." This file, according to Mr. COOK, contains the contractor's, or Republic's, computations on cabin

pressurization. The meager information contained in this file would be of little value.

File entitled "Anti-icing." This file contains the entire anti-icing system as proposed for use in the XF-12. The information contained in this file would have been classified as "Confidential" during the classified period of the XF-12 project. The information now contained in this file is not confidential.

A series of letters and memoranda (inter-office) relating to the XF-12 and dated during the early part of 1945, relates to correspondence between plant engineers and various companies concerning the various systems contemplated for use in the XF-12. All of the information contained in these letters and memoranda is available commercially and would have been at the time the various documents were prepared. Although available commercially, the information, in so far as its application to the XF-12 is concerned, was not available as this, of course, according to Mr. COOK, was "Confidential" information. The letters and memoranda in particular relate to cabin air control system, anti-icing of the wing and tail assemblies and the cabin heating system.

Document entitled "Interoffice Correspondence, dated September 17, 1945, by R. R. HIGGINEOTHAM, subject - Revised CAA Power Plant Regulations." This document, according to Mr. COOK, relates to the commercial version of the XF-12 which is known as the "Rainbow." The information contained in this document was not classified as of the date appearing on the document.

A document dated March 15, 1945, bearing the title "Handbook of Overhaul Instructions With Parts Catalog for High Pressure Axial Flow Fan Units." This document is published by the Air Forces and bears the classification "Restricted." Mr. COOK advised that the information contained in this document no doubt was restricted as of the date appearing on the document. However, the information contained in it could probably have been secured through a number of commercial sources. He stated that all publications of this type were down-graded by a general order known as Technical Order OO-1 in July of 1946. As of the present time this document is unclassified.

Mr. WALTER G. RIEHL, Operational Intelligence Office, Wright-Patterson Air Force Base, Building 263, Area A, Dayton, Ohio.

Mr. RIEHL advised that the records of his office relate to the security classification of Air Force documents. The records of his office with particular regard to the XF-12 aircraft revealed that this aircraft, which was Project No. MX-495, became an active project in February, 1944, with a security classification of "Confidential."

In July, 1946, the security classifications on this project were established as follows:

- 1. Performance Data classification "Confidential"
- 2. Military Characteristics classification "Confidential"
- 3. Model Specifications classification "Confidential"
- 4. All Other Information classification "Unclassified"

Mr. RIEHL explained that prior to July, 1946, all information relating to the XF-12 was classified as "Confidential" as there was no break-down in so far as the security was concerned of the various phases of the airplane.

In April, 1948, the security classifications were listed as

follows:

- 1. Dimensions and Weights classification "Restricted"
- 2. Exact Performance and Characteristics Data classification "Confidential"
- 3. Internal Photographs and Joinings classification "Restricted"
- 4. Other Information classification "Unclassified"

Mr. RIEHL explained that the last listed security classifications are the security classifications which apply as of today.

R. W. TOBÍAS, Administrative Branch, Engineering Division, Building 14, Wright-Patterson Air Force Base, Dayton, Ohio.

Mr. TOBTAS produced a document entitled "Inter-office Memorandum, Army Air Forces Materiel Center, Office of Commanding General, dated February 2, 1944, to the Chief, Engineering Division, Wright Field, subject - Assignment of Project Number For XF-12 Aircraft." This document requests that appropriate project number and "Confidential" classification be assigned to the XF-12 airplane which is being procured from Republic Aviation Corporation under A.F.P. No. 296822, dated February 1, 1944. This memorandum is signed H. Z. BOGART, Colonel, Air Corps, Chief, Technical Section, Engineering Division.

This memorandum bears an endorsement of Brigadier General F. O. CARROLL, dated February 4, 1944, as follows: "Confidential' security classification is approved covering development of XF-12 and project number 1XX-495 is assigned."

On the face of this document appears a stamp "Unclassified November, 1945."

The records of the Contract File Section, Wright-Patterson Air Force Base, revealed that the XF-12 airplane, or project No. MX-495, is covered by U. S. A. F. Contract No. W33-038AC2135 between the United States Air

Forces and Republic Aviation Corporation.

J. R. AUSTIN, Engineering Division, Wright-Patterson Air Force Base, Dayton, Ohio.

Mr. AUSTIN advised that the file entitled "XP-47J" relates to a confidential project covering a stripped-down version of the P-47 airplane. This, he stated, was an experimental project and the XP-47J was never placed in production.

The information contained in the file relates to the electrical analysis of equipment required in the XP-47J as well as information concerning the equipment of the plane and its armament. He stated that the information would be of relatively little value as this information would merely indicate the amount of equipment used in the plane and the electrical load analysis.

With regard to the entire XP-47J, or the P-47, the information contained in the file was of such a minor nature and small amount that it would be of no value to any one in the absence of information relating to the balance of the airplane. However, as this is a portion of a confidential project, during the period of the project's life the information would fall within a classified classification. Mr. AUSTIN was of the opinion that this material would be retained as "Confidential."

The file also contains information relating to the electrical load analysis of the P-47. This information is of no particular value in the absence of further information, but as part of a classified project would itself have been classified.

PAUL SMITH, Fighter Branch, Engineering Division, Wright-Patterson Air Force Base, Dayton, Ohio.

Mr. SMITH advised that the XP-47J was an experimental plane which was identical with the P-47 except that much of the equipment in the P-47 had been removed from the XP-47J to increase its speed. As a matter of interest, he mentioned that the XP-47J was the first plane which was propeller driven to attain five hundred miles per hour. Mr. SMITH advised that the XP-47J never became a production item. Only one plane was delivered.

He stated that he is aware that all information concerning a production plane becomes "Unclassified" when it does become a production item. However, information concerning the performance is considered "Confidential" by the Engineering Division. Therefore, information concerning the XP-47J as well as the P-47 is still considered "Confidential" by the Engineering Division. However, all other information concerning its structure and equipment is "Unclassified."

At the time of the mock-up of the XP-47J the P-47 was not a classified project in the eyes of the Engineering Division as it then was a production plane and in fact was in use as a combat plane.

The information contained in the file entitled "XP-47J" does not relate to the performance of either the XP-47J or to the P-47. Therefore, it would not be considered classified as of today.

WALTER G. RIEHL, Operational Intelligence Office, Wright-Patterson Air Force Base, Dayton, Ohio, advised that the earliest records of his office go back to July, 1940. These records indicate that as of July, 1940, the XP-47, which was assigned Project No. MX-5, was classified as "Confidential." The entire project was down-graded to a "Restricted" classification in October, 1940, and, subsequently, in October, 1945, the project was cancelled and all information involved was declassified.

R. W. TOBIAS, Administrative Branch, Engineering Division, Wright-Patterson Air Force Base, Building 14, Dayton, Ohio, advised that the records of his office contain no reference to the XP-47J. He stated that that would indicate to him that the XP-47J, so far as his office was concerned, never was a classified project.

Examination of the records of the Contract File Section, Wright-Patterson Air Force Base, Dayton, Ohio, revealed that Contract No. W35-AC39160, dated June 9, 1943, related to the XP-47J.

LAVERGNE COOK, Assistant Chief, Cargo Branch, Engineering Division, Wright-Patterson Air Force Base, Dayton, Ohio, upon examination of the file entitled "XP-69" advised that this file related to an experimental plane which never was delivered by Republic Aviation. The information contained in the file relates to cabin pressurization and is of such a limited quantity as to be of no value to any one in the absence of more complete information regarding the entire plane. This plane, he stated, was designed in July, 1941, and a contract was let to Republic Aviation in March, 1943. This contract subsequently was cancelled May II, 1943. During the period that this was an active project the project would have been classified as "Confidential."

J. R. AUSTIN, Engineering Division, Wright-Patterson Air Force Base, Dayton, Ohio, upon examination of the file entitled "XP-69" advised that this file relates to the project engineers' computations as to cabin pressurization. The file, he stated, does not contain sufficient information to be of any value. However, the XP-69, while an active project, was classified as "Confidential." He stated that the XP-69 was an experimental plane and never became a production item.

WALTER G. RIEHL, Operational Intelligence Office, Wright-Patterson Air Force Base, Dayton, Ohio, advised that the records of his office revealed that the XP-69 aircraft, which was assigned Project No. MX-162, became an active project in September, 1941, with a security classification of "Confidential." He stated that his records reveal that the entire project was cancelled and declassified in October, 1945.

An examination of the records of the Contract File Section. Wright-Patterson Air Force Base, Dayton, Ohio, revealed that the XP-69 airplane, or Project No. IX-162, is covered under Contract No. W35AC22238, which was dated November 3, 1941. This contract calls for the delivery of two intercepter airplanes, the first to be delivered within fifteen months of the date of contract and the second within eighteen months of the date of contract. The file indicates that this was a classified project at its inception with the classification of "Confidential." The entire project was declassified on November 1, 1945.

The contract file indicates that a Notice of Termination, terminating the Republic's work on this project, was sent to Republic Aviation on May 22, 1943.

The balance of the documents forwarded this office by the Bureau were examined by LAVERGNE COOK, J. R. AUSTIN and RALPH FOULGER of the Engineering Division at Wright-Patterson Air Force Base, Dayton, Ohio. They advised that the documents did not relate to any particular airplane and appeared to be general information which an aircraft engineer would use for reference. The documents contained a number of photostats on top of which appears an organizational chart of Republic Aviation which relates to three fighter projects. Following this organizational chart are a series of documents which relate to design standards. These design standards are the design standards of Republic Aviation Corporation as well as national aircraft standards. They do not refer to any particular airplane but would be used as a reference for all planes on which Republic engineers would have been working. These standard sheets are not classified and never have been.

The file contains also a series of hand written documents and sketches entitled "Airplane Stress Analysis."

An examination of these documents by LAVERGNE COOK, J. R. AUSTIN and RALPH FOULGER was made. They advised that these documents apparently relate to an academic study of airplane stress analysis. There is no indication in the hand written notes or diagrams that they in any way refer to the XF-12, XP-69, XP-47J, P-47 or any other military aircraft manufactured by Republic Aviation. It would appear from the notes and various computations that the individual who made the notes and computations was taking a course in aircraft engineering. There is no indication that the notes or computations in any manner relate to any particular military aircraft.

Attached to these notes and computations are three weight charts relating to a model M-146. 759

No information could be developed at Wright Field in either the Fighter Branch of the Engineering Division or the Bombardment Branch of the Engineering Division to indicate that these weight charts refer to any particular military aircraft. It was believed that these weight charts are the basis for the part of the academic study of airplane stress analysis and the other computations appearing among these documents.

The documents also contain a file which bears no identifying label, the first of which bears the caption "Torsional Spring." This file merely contains computations on spring tension and has no particular application to any military aircraft. It was the opinion of LAVERGNE COOK, J. R. AUSTIN and RALPH FOULGER that these probably are the notes of an aircraft engineer relating to spring tension under varying conditions.

The file also contained, according to Mr. COOK, Mr. FOULGER and Mr. AUSTIN, correspondence and commercial diagrams relating to an air speed switch and thermostats. The correspondence and diagrams relate to no particular military aircraft and are diagrams which could be secured commercially from the companies which prepared the diagrams. These diagrams, therefore, would not be classified and are of no value or significance.

The documents also contain correspondence and sketches of electrical actuator units. The correspondence and diagrams are not pertinent to any particular military aircraft and it was the opinion of Mr. FOULGER and J. R. AUSTIN that Republic Aviation was merely seeking information concerning actuators generally. These diagrams could be secured commercially and they have no particular application to a military aircraft that would ever have been classified.

In the documents appears a file merely bearing the name on its face "WALTER KIDDIE." This file contains a diagram of a valve produced by Walter Kiddie and Company which is a production item. An examination of this diagram by LAVERGNE COOK, J. R. AUSTIN and RALPH FOULCER failed to identify it with any particular military aircraft. It was their opinion that the diagram in itself would be of no value as there is no indication on the diagram of its application to any military aircraft.

By teletype dated December 27, 1948, the Washington Field Office requested that Mrs. GERTRUDE MARTI be interviewed to determine the degree of association between herself and PRISCHILA HISS.

DETAILS:

AT LOWER SALEM, OHIO

The following investigation was conducted by Special Agent

DANIEL W. JOHNSON:

Mrs. GERTRUDE EVANGELINE MARTI, Lower Salem, Ohio, advised that she taught music from September, 1941, to December, 1943, at White Hall Country School for Children, Washington, D. C. However, the names of ALGER and PRISCILLA HISS are totally unfamiliar to her. She is certain that Mr. and Mrs. HISS never visited in her home nor she in theirs.

Mrs. MARTI stated that she is married to Dr. FRITZ MARTI and resided at 11 Hesketh Street, Chevy Chase, Karyland, from 1939 to 1944. Dr. MARTI was Professor of Philosophy at the University of Maryland from 1935 to 1946 and also states he is unacquainted with either Mr. or Mrs. HISS.

Mrs. MARTI stated that Mrs. GEORGE BLACKWELL was her predecessor as a music teacher at the White Hall School but that she met Mrs. BLACKWELL on only one occasion.

The Baltimore Office by teletype dated January 6, 1949, advised that ALGER HISS was a member of the Omicron Delta Kappa Fraternity. The teletype requested that the Cincinnati Office contact the National Headquarters of this fraternity at the University of Cincinnati to secure correspondence or other typewritten material which may have been received from ALGER HISS.

AT CINCINNATI, OHIO

The following investigation was conducted by Special Agent MARK M. McSHURLEY

Dean R. BISHOP, University of Cincinnati, National Secretary of Omicron Delta Kappa, advised that he has no correspondence or other typewritten material from AIGER HISS.

The records of this fraternity indicate that HISS was initiated into Beta Circle, Johns Hopkins University, November 20, 1924. He was also a member of the Barn Stormers Club, Cotillion Club, Pi Delta Epsilon and Sigma Chi Fraternity. The present Secretary of the Beta Circle is Dr. WILLIAM KELSO MARRILL, Johns Hopkins University.

By teletype dated January 17, 1949, the St. Paul Office requested that the Cincinnati Office, at Springfield, Ohio, secure copies of the February, 1934, copy of American Magazine which contained an article entitled "Uncle Sam Grows Younger."

AT SPRINGFIELD, OHIO

The following investigation was conducted by Special Agent 1750

JOHN V. DeNEALE:

MARSHALL C. WILLIAMS, Superintendent, Crowell-Collier Publishing Company, Springfield, Ohio, made available one copy of the February, 1934, edition of the American Magazine. Photostatic copies of the article appearing in this magazine entitled "Uncle Sam Grows Younger" were made and have been forwarded to the Bureau and New York Office.

Photostatic copies of a group of documents found in possession of FELIX AUGUST INSIERIAN which were forwarded the Cincinnati Office by Bureau letter dated January 12, 1949. They are identified as follows and accordingly numbered in ink on the outside of the folders:

- Folder No. 1. Documents relating to XF-12 equipment, cabin pressurization, cabin air control system, cabin heating system, anti-icing wing and tail assemblies, oxygen supply system, fire extinguishing systems, C.A.A. requirements relating to commercial version of XF-12.
- Folder No. 2. File relating to XP-69 cabin pressurization data; file entitled "XP-47J" relating to electrical load analysis of equipment in XP-47J and P-47.
- Folder No. 3. Organizational chart of Republic Aviation, engineering design standards of Republic Aviation Corporation, national aircraft standards, U. S. A. F. standards, an academic study of airplane stress analysis.
- Folder No. 4. 1. Academic study of spring tension
 - 2. Commercial designs of air speed switch and thermostats
 - 3. Commercial information concerning electrical actuators
 - 4. Commercial design of a valve produced by WALTER KIDDIE

JAY DAVED WHITTAKER CHAMBERS. Was.: Re.: AIGER HISS, Was., et al.

PERJURY. ESPIONAGE - R. INTERNAL SECURITY

Dear Sir:

Reference is made to Springfield teletype to Bureau with copies to Chicago and New York, January 25, 1949, wherein Springfield advised that ANTHONY MICHEL, attorney in law firm of Gardner, Carton & Douglas, First National Bank, Chicago, Illinois, might be in possession of typewritten correspondence eminating from AIGER HISS.

K427 Here

K434

Mr. ANTHONY MICHEL, Aka. Tony Michel, attorney, Gardner, Carton & Douglas, 33 South Clark Street, advised SA ROBERT J. WIISON on January 31. 1949 that he had only two pieces of typewritten correspondence in his possession eminating from AIGER HISS and that these two letters would be voluntarily furnished to the Federal Bureau of Investigation, and they are as follows:

> A typewritten letter on the letterhead of the Department of State, Washington, dated October 30, 1946, beginning WDear Tony: Thanks for your letter of , " and signed AIGER HISS.

A typewritten letter on the letterhead of the Carnegie Endowment for International Peace, dated June 25, 1947, beginning "Dear Tony: Thanks for your letter of" and signed AIGER.

Mr. MICHEL further advised, however, that he believed AIGER HISS has been in correspondence with Mrs. LOUISE WRIGHT, Director, Council on Foreign Relations, 116 South Michigan Avenue, Chicago, Illinois, and that he

Let to Director

Re: JAY DAVID WHITTAKER CHAMBERS, Was.; AIGER HISS, Was., et al

believed Mrs. WRIGHT would be cooperative in furnishing such letters to the Federal Bureau of Investigation.

Mrs. LOUISE WRIGHT, Director, Council on Foreign Relations, 116 South Michigan Avenue, advised SA ROBERT J. WILSON on January 31, 1949, after a search of her files, that she had in her possession three typewritten letters emanating from ALGER HISS, and that she would voluntarily furnish these to the FBI, and these letters are as follows:

> A typewritten letter on the letterhead of the Carnegie Endowment for International Peace, dated November 5, 1947, beginning "Dear Mrs. Wright: This is a brief initial " and signed AIGER HISS.

A typewritten letter on the letterhead of the Carnegie Endowment for International Peace, dated June 5, 1947, beginning "Dear Mrs. Wright: Replying to your letter of " and signed AIGER HISS. It should also be mentioned that in connection with this letter, there appears a post-script, apparently in the handwriting of AIGER HISS; which is as follows: "The above sounds most abrupt but is not so intended! It was nice to see you in Washington yesterday. Is there any news of developments in the Council?", signed A.H.

The initials of SA ROBERT J. WIISON appear on the reverse side of the above-described letters which are being submitted to the Iaboratory herewith as enclosures for comparison with questioned documents in the above-captioned case, and these letters should be returned to the Chicago Division when they have served their purpose.

Reference is made to the report of SA ROBERT J. WILSON dated January 27, 1949 at Chicago, wherein a lead was set out for the Rockford Resident Agency of the Chicago Division to contact the firm of Goerlitz-Beckwell Company at Rockford, Illinois, to determine the present location

Let to Director

Re: JAY DAVID WHITTAKER CHAMBERS, Was.; AIGER HISS, Was., et al

of Woodstock Typewriters, Serial Nos. 156063 and 171908, sold to that company on February 1, 1940 by the Woodstock Typewriter Company, Woodstock, Illinois.

SA FRANCIS V. ELLIS, through the Goerlitz-Becknell Company, Rockford, Illinois, located Woodstock Typewriter Serial No. 156063 in the possession of HOWARD BRETT, Chadwick, Illinois, and Woodstock Typewriter Serial No. 171908 in the possession of ORA GOUKER, 912 Furman Street, Rockford, Illinois, and typewritten specimens taken from these two typewriters are also being forwarded to the laboratory for comparative purposes as enclosures with this letter.

Very truly yours,

G. R. MC SWAIN

It is noted that the letter of reference requests certain other examinations and states that the circumstances surrounding K407 through K425 "strongly indicate that they were prepared by Mrs. HISS herself". However, since it cannot be definitely shown that Mrs. HISS prepared this material herself in her won home on her own machine, the further examination is being deferred pending the results of additional investigation to establish whether or not these items were so prepared. After such an investigation further comparison will be made if requested and if then considered appropriate.

The evidence K407 through K425 will be returned to the Washington Field Office after photographing.

UNITED STATES GOVERNMENT

Director, FBI

DATE: February 1, 1949

GUY HOTTEL, SAC, WASHINGTON FIELD

SUBJECT:

JAY DAVID WHITTAKER CHAMBERS, wa, et al; Attention: FBI Laboratory

PERJURY; ESPIONAGE - R; INTERNAL SECURITY - R

94031

Re FBI Laboratory report dated January 6, 1949 which reflected the results of an examination of material which was obtained by the Washington Field Office from the Civilian Defense and Emergency Housing records for the Georgetown area of Washington maintained by Mrs. WALTER LOUCHEIM. Particular reference is made to specimens K-156 and K-157 which were written on a Remington machine with #1 Pica type and K-159 which was written on a Corona portable with #1 Pica type.

K407

There are being transmitted herewith 18 additional specimens obtained from similar Civilian Defense records of Mrs. HANS KLAGSBRUNN, 3420 Q Street, N. W. who succeeded Mrs. HISS as billeting officer for Zone 1 in the Georgetown area of Washington in 1942. These records were taken from a file turned over to Mrs. KLAGSBRUNN by Mrs. PRISCILLA HISS. There is also being transmitted a carbon copy of a letter dated February 14, 1942 signed by PRISCILLA HISS which was obtained from similar records of Mrs. CHARLES RUNYON, 1523 34th Street, N. W. The circumstances surrounding these letters and the above referred to specimens The circumstances surrounding oness account the HISS herself. Constitution of the strongly indicate that they were prepared by Mrs. HISS herself.

It is requested that first of all this material be compared with the documents Q-5 and Q-6 through Q-69. It is also requested that this material be compared with other documents previously submitted which are dated subsequent to 1938 and which are known to have come from the HISS household. connection, reference is made to specimens-K-15 and K-16 which were purportedly typed by TIMOTHY HOBSON, step-son of AIGER HISS; K-60 a letter written by Mrs. HISS in 1941, K-42 a letter written by ALGER HISS in 1941; K-143 a letter by TIM HOBSON in 1946 and K-303 an undated document prepared by PRISCILLA HISS. In addition there may be in the possession of the FBI Laboratory additional specimens not known to the Washington Field Office which came from the HISS household after 1938 and it is requested that any such material found be compared with the Civilian Defense material to determine if the same typewriter or typewriters were used to prepare them. It is believed that letters signed by AIGER HISS and written on the stationery of the Department of State or the Carnegie Foundation for International Peace would probably have been typed in his office and an examination of them would not be successful. The FBI Laboratory

The purpose of this request is as followers follows All efforts to date to obtain correspondence subsequent to 1938 typed on the Einstent Woodstock machine have

should advise the Washington Field Office of the make of typewriter (s) used in

cc - New York

Enclosure coppyantiefechieraspetanchiolinicab. 74-94

preparing the specimens enclosed herewith;

JJW:CWP:vda FOR LAB. ACTION AND RELEGED COPIES DESTROYED

96 DEC 16 1964

Kisseloff-4650

been unsuccessful. However, the Washington Field Office is in possession of information received from a number of individuals having access to the HISS home that there was an old typewriter in the HISS house up until 1947 when the HISSES moved to New York. If the Civilian Defense material can be identified with other correspondence attributable to the HISS family, it would thus establish the probable identity of the typewriter observed by these individuals and would also strengthen the theory that ALGER HISS disposed of the Woodstock typewriter in about 1938.

Reference is further made to FBI Laboratory report dated January 18 reflecting examination of specimen K-303, and to Washington Field Office teletype January 19 dealing with spelling, etc. of specimens previously submitted with Q-5 through Q-69. It is requested that a similar examination be conducted in regard to the specimens submitted herewith. The attention of the Laboratory is directed to the small letter "r" appearing on some of the specimens submitted herewith.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI

DATE: February 8, 1949

A FROM

SAC, Baltimore

SUBJECT:

JAY DAVID WHITTAKER CHAMBERS, was, ET AL;

ESPIONAGE - R; PERJURY

Reference is made to the teletype from the Washington Field Office to Baltimore and New York dated February 3, 1949, regarding the authority to interview STANLEY BLUMBERG, Mrs. ROBERT LEE, Dr. SIDNEY LIEBERMAN and ARDLEIGH BURKE.

It is believed advisable to hold in abeyance the interview with STANLEY BLUMBERG until after the results of the reinterview with FRANKLIN VICTOR RENO by the El Paso Office and with the divorced wife of STANLEY BLUMBERG by the Denver Office, are obtained. The El Paso and Denver Offices will therefore kindly expedite interviews with these two individuals and furnish the results of their interviews to Baltimore.

Mrs. ROBERT IEE and Dr. SIDNEY LIEBERMAN will not be interviewed unless additional information from the interview with RENO indicates that these interviews would be productive. In the event RENO does not satisfactorily identify the "big bear", it is believed possible the identity of this individual may be obtained through ARDLEIGH BURKE. It is therefore suggested that the Washington Field Office be advised by the El Paso Office concerning the results of RENO's being reinterviewed regarding the identity of this individual.

Memorandum • UNITED STATÉS GOVERNMENT : Director, FBI DATE: February 8, 1949 GUY HOTTEL, SAC, Washington Field SUBJECT: J. D. VHITTAKER CHAMBERS, was, et al HEREIN IS UNILASSIFIED INTERNAL SECURITY - R DATE 7-14-87 BY SP7 MB = 128 Information has been received by this office to the effect that one RAYMOND D. JAMESON was a friend and neighbor of ALGER HISS. JAMESON lived at 3334 Volta Place, N. W., Georgetown, D. C. in 1942 and 1943, at which time AIGER HISS lived at 3415 Volta Place, N. W. Washington Field Office Informant who over a long period has furnished this office, with a great deal of very reliable information, advises that RAYMOND D. (JIM) WESON and his wife are well known to her. Informant states JAMESON was born about 1896, his father died at an early age, and he was reared by a very domineering mother. His first contact with Communist and persons generally in the left wing movement, came about through the fact that he was a free lance writer who wrote a great deal of poor material. The only people he could find who would consider publishing his work were publishing b2 houses operated by the left wing group. These people accepted and published b7D his work primarily because he came from an established family of good American background and his name lent an air of respectability to their establishments. Due to these circumstances and primarily to advance himself with these people. JAMESON became quite outspoken in his pro-leftist and anti-capitalist utterances. advises that while he has given a great deal of lip service to the Communists, he has never become a member of the Communist Party, to the best of her knowledge. JAMESON became a professor of English or American Literature at some school in China. He was fired from this position because of drunkenness. On his return to the United States, he claimed he had been discharged because of his liberal tendencies. JAMESON and his wife became close friends of whom they knew to be a member of the Communist Party. The JAMESONS got along well with ARCHIBALDAMacLIESH and AIGER HISS, and became close friends of the HISSES after moving to Volta Place, N. W., in 1942. JAMESON was employed at the Library of Congress prior to the time that MacLIESH took over there, and after MacLIESH took over, rose rapidly in that service. At the time of the HITLER-STALIN pact, MacLIESH became violently anti-Russian and so did the JAMESONS. The JAMESONS then ignored COPIES DESTROYED but informant RECORDED - 66 96 DEC 16 1964 74-94 INDEXED - 66 31 FEB!10 1949 cc - Portland (encl) (AMSD) cc - New York FEB 161945 Kisseloff-4663

Director, FBI
Re: J. D. WHITTAKER CHAMBERS, was, et al
February 8, 1949

was able to keep in touch with them through members of informant's family who were still considered acceptable by the JAMESONS. After the German attack on Russia, informant once more became socially acceptable to the JAMESONS. Mr. JAMESON was subsequently fired from his position at the Library of Congress, again due to his drinking. He subsequently was employed by the Red Cross and was sent to the South Pacific possibly to Australia, and his wife went to the Far East, possibly China. After V-J Day, the JAMESONS returned to Washington, D. C. and he became the historian for the Red Cross. was once more very closely associated with them.

This employment was terminated, probably due to completion of the work for which JAMESON was hired. Subsequent to this, was advised that JAMESON was planning; together with the Foreign Editor of the "Washington Post" newspaper, to start a movement in support of the Chinese Communists in their efforts to overthrow the Chinese Government, but nothing came of this.

The informant last saw the JAMESONS in about June, 1948, at which time, he was desperate for employment. He was at that time still talking pro-Communist to informant. Informant very definitely feels that JAMESON's association with the Communists was a matter of self convenience. feels JAMESON is strictly an opportunist who now realizes that the Communists have lost their power to advance his personal ambitions. Informant feels certain that JAMESON must be aware of AIGER HISS' connection with the Communist Party and feels he will give information to agents of this Bureau if properly approached.

In view of the foregoing, it is requested that JAMESON be interviewed at the home of his mother, Mrs. JAMESON, Route 4, Box 104, Corvallis, Oregon. This interview should be handled by an agent experienced in Communist and Espionage matters. It is felt that this interview will have to be conducted on a friendly basis, but that JAMESON should be made to understand that this Bureau is fully aware of the extent of his association with AIGER HISS and that he must therefore be aware of HISS! Communist affiliations. It is felt that this interview has the greatest opportunity for success if JAMESON's feeling that the Communists are of no further use to his personal ambitions can be made a conviction.

In conducting this interview, there are two things that should be carefully borne in mind, first, that the interview be conducted in such a manner as to avoid exposing the Washington Field Office informant and secondly, that JAMESON is very anti-TRUMAN.

This interview should be expeditiously conducted in line with the instruction contained in Bureau teletype to all SACS, dated January 10, 1949.

JEH cl. 74-94

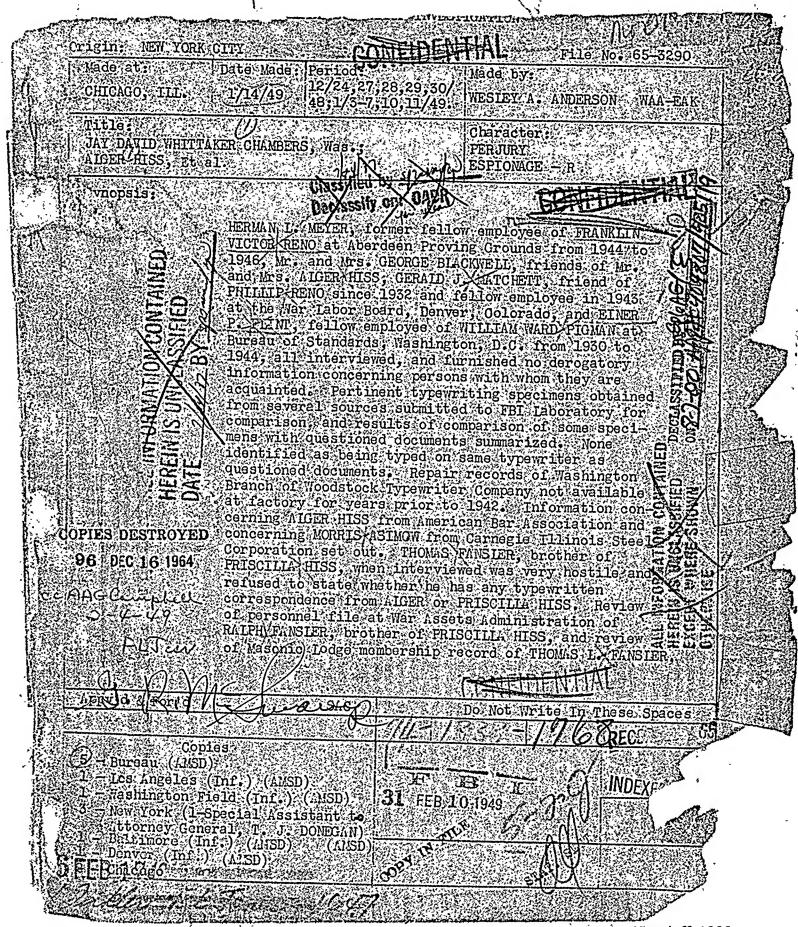

Director, FBI Re: J. D. WHITTAKER CHAMBERS, was, et al February 8, 1949

For the assistance of the Portland Office) there are being forwarded herewith as enclosures, photographs of WHITTAKER CHAMBERS and his wife.

In addition to interviewing JAMESON generally relative to his knowledge of and association with the AIGER HISSES, he should be interviewed specifically as to any knowledge he may have of the following:

- 1. The identity of all friends and associates of AIGER and PRISCILLA and these persons last address known to him.
 - 2. The identity of any maids or other domestic employees of the HISSES known to him, particularly as of 1938.
 - 3. Whether or not he ever saw any typewriters in possession of the HISSES, if so their make, style, or any other information concerning them.
 - 4. Does he have any typed material from the HISSES; if so, procure same and forward to FBI Laboratory for comparison purposes.

The Bureau, New York, and Washington Field Offices should be advised of the results of this interview as soon as it has been completed.

INTERVIEWS RELATIVE TO PRINCIPAL FIGURES

HERMAN L. MEYER

Mathematics Department

Eckhart Hall

University of Chicago

FRANKLIN VICTOR RENO

On January, 4, 1949 Mr. MEYER advised the writer and SA ROBERT VIISON that he first met FRANKLIN VICTOR RENO in February or March 1944 whon MEYER was assigned to a research section at the Aberdeen Proving Grounds, Aberdeen, Maryland, of which RENO was also a member. This section was under the leadership of EDWARD J. MC SHANE, and others working in the section were ARTHUR'S. PETERS, JOHN L. KELLEY, A. T. MORRIS, HERB FEDERER and KIRK FORT. The latter two were in the United States Army. After seven or eight months on this job MEYER moved into a room directly across the hall from RENO in what he recalled to be the Dormitory for Baldwin Manor, hoardeen, Maryland, and both occupied bachelor quarters in this dormitory until about September, 1946 when MEYER left this employment.

MEYER emphasized that he came to know RENO intimately in that he

Chicago filo 65-3290

worked with him daily and conversed with him on many occasions. On some of these occasions RENO had been drinking quite heavily. MEYER stated that RENO had previously suffered a nervous breakdown, with the result that he was inclined to be moody and actually had few close daily associates at the project. During the many conversations MEYER had with RENO he stated that RENO never mentioned that he was a member of the Communist Party or indicated that in any way he was active in or sympathetic with this organization. MEYER did not notice any activities on RENO's part which is would indicate any affiliation with the Communist Party. MEYER thought that on one occasion RENO may have said something to the effect that while he was associated with such organizations since that time. However, MEYER was not sure that this statement had been made by RENO, and emphasized that he would not testify that this statement had been made.

During the time MEYER and RENO were at the Aberdeen Proving Grounds, five employees were fired by the Army for security reasons, and MEYER and RENO, along with many others, were active in promoting open meetings designed, according to MEYER, to make the charges against these persons public. MEYER did not know of any Communist Party sponsorship involved in promoting these meetings and stated he did not know the nature of the charges against the five employees. RENO, on one occasion, went to see an archbishop in Baltimore in an attempt to have him use influence in protecting the interests of the five employees.

In his many conversations with RENO, MEYER never heard the latter mention AIGER HISS or WHITTAKER CHAMBERS, and MEYER never noticed anything which would indicate that RENO was furnishing any information to unauthorized persons, including CHAMBERS. In this connection MEYER stated that he never had any reason to suspect RENO was affiliated with any Communist Party underground movement, and prior to the recent newspaper publicity, MEYER, did not have any knowledge of the alleged activities of CHAMBERS or HISS.

MEYER concluded by saying he never suspected RENO of any fillegal activity; and in fact felt that he was a vory conscientious hard-worker, whom MEYER considered to be one of the civilian heroes of the war.

In addition to persons listed above as having worked in the same section at Aberdeen, MEYER stated that U. V. LEVIS came to the Proving Grounds about the time MEYER left and reportedly is still employed ther with the result that he may also know RENO. MEYER was unable to furniany additional information concerning RENO's associates in Washington, stated that on an occasion when MEYER planned a trip to Colorado RENO furnished him a list of some of his relatives and the following friends in the west.

Re: ALGER AND PRISCILLA HISS

COLLEGEN

On December 30, 1948 ETHEL BLACKVELL advised the writer and

Chicago filo 65-3290

Special Agent ROBERT U. WILSON that she first know AIGER HISS slightly in Baltimore where they both were reared and both attended the Baltimore Friends School at different times. Their acquaintance was very casual during this period and she saw him again when ho was at Harvard University and she was attending Radcliffe College. AIGER HISS was in the class of her husband's sister at John Hopkins University. Mrs. BIACKWELL bocame reacquainted with AIGER HISS and met Mrs. AIGER HISS in Washington, D. C. at the time his step son, TIMOTHY HOBSON, became a student at the Landon School in Bethesda; Maryland: Ars. Blackwell at first thought this was in 1934, but after reviewing a recent letter from AIGER HISS; which will be described lator, she set this date as 1936, at which time both Wrs. BLACK ELL and her husband, GEORGE H. BLACKWELL, were teaching at the landon School.

Subsequently, Mrs. BIACK/ELL became bottor acquainted with PRISCILL HISS than she did with wick, inasmuch as she saw Mrs. HISS quite frequently bocause of their mutual interest in music, with the result that they attended some concerts and other functions together. However, she and Mr. BLACK ELL saw both Mr. and Mrs. HISS two or three times a year from 1936 until December of 1941. The BLACK/ELLs left Washington in 1942, since which time they have corresponded with the HISSos occasionally. On at least one occasion Wr. and læs: BIACKÆLI wore at the HISS home for dinner.

TIMOTHY HOBSON romained in the Landon School for about two or throof years, and also was in the choir of the Christ Church, Goorgotown, where Mrs. BLACKYELL was in charge of music. Mr. and Mrs. AIGER HISS occasionally attended this church. With respect to TIMOTHY HOBSON's attendance at the Landon School, Mrs. BIACKWELL recalled that on one occasion AIGER, HISS sent a letter to the Headmaster concerning his attendence; and this letter was read at a faculty meeting. She did not know whether the letter was typewritten.

During the interview, Mrs. BLACKWELL's husband, GEORGE H. BLACKWELL returned to their home, and affirmed the above facts. Both stated that during their association with Mr. and Mrs. HISS thoy never heard either make any statements or noticed either engage in any activity which would indicate that the HISSes were members of the Communist Party or affiliated with this organization in any way. During the period from September, 1939 to June, 1940 whon Russia and Germany were working together in an alliance, they stated they had little association with the HISSos, but did not notice any change in attitude of Mr. and Mrs. HISS concerning foreign affairs. Both emphasized that they have the greatest respect and admiration for both his and Mrs. HISS and never had any suspicion that cither were engaged in any activity detrimental to the United States.

> Prior to recent publicity in the newspapers, neither Mr. nor Mr 120 EN 1768

Chicago file 65-3290

BIACKWELL heard of WHITTAKER CHAMBERS and never knew of any association of CHAMBERS with AIGER or PRISCILL HISS. Also, they never had any reason to believe that AIGER HISS was furnishing information to CHAMBERS or anyone else outside the government. Both Mr. and Mrs. BIACKWELL stated they did not know whether Mr. and Mrs. HISS owned a typewritor or had one in their home. Their last association with Mr. and Mrs. HISS was on December 23, 1941 at a party in Washington, D. C. given by L. CORRIN STRONG and his wife Wrs. ALICE TROVBRIDGE STRONG. Mr. STRONG was a high ranking officer in the United States Army. The only other associates of the HISSes known to Mr. and Mrs. BIACKWELL were the following:

Mr. and Mrs. SLOCUM KINGSBURY Washington, D. C. (Mr. KINGSBURY is an architect)

WILLIAM TRIPIETT Hoadmaster of the Landon School Bothesda, Maryland

Prior to 1948 the BLACKVEILs did not recall receiving any typewritten correspondence from oither Mr. or Mrs. HISS, but in 1948 received two typewritten letters from AICER HISS on the letterhead of the Carnegie Endowment and International Poace, togother with a carbon copy of a lotter on the same lotterhoad dated Octobor 20, 1948, from AIGER HISS to Roy. J. GILLESPIE ARASTROM; St. Mary's Rectory, Ardmore; Pennsylvania. They could not locate one of the letters from Mr. HISS but located a lotter dated. October 20, 1948, in which HISS states that he believed they first knew the BLACKVEILS, at the time TIM entered Landon in the fall of 1936. The also refers to various occasions when he and PRISCILLA and the BLACKWELLS went to Christ Church for the ovening services. In the letter to Rev. ARMSTRONG HISS informs him that he may have seen the press accounts of what HISS describes as irresponsible and fantastic accusations to which he has been subject since early in August, and that HISS is engaged in the laborious task of demonstrating one by one that various of what he describes as hallucinatory statements by CHAMBERS are contrary to reality. "HISS states in this letter that one of CHAMBERS! fantasies was that HISS was forbidden to go to church; and that the time to which CHAMBERS would be referring would begin in early winter 1945 and extend for a year or two. HISS stated that this coincided with the spring when he moved to 2095 P Street in Goorgetown; which would be about the time Rev. ARMSTRONG came to the Christ

HISS believed that either in the spring or fall of 1935 he and

Chicago filo 65-3290

是一种

his wife began occasionally to attend Christ Church services and that about that time TIM (TIM HOBSON) became one of the choir boys. HISS continued in the lottor that their interest in Christ Church continued as they attended regularly, but that TII coased his activities in the choir because of a serious accident on February 19, 1937, HISS asked Rov. ARMSTRONG to write him concorning the attendance of Mr. and Mrs. HISS at the Christ Church and TIMMY sactivity in the choir. The BLACK ELLs made available both lotters by registered mail. In submitting a copy of the letter to Rov. ARMSTRONG, Mrs., BLACKVELL, in a lottor to this office, advised that she and Mr. BIACKWELL word hesitant to sond this lotter because it was confidential In this connection, the writer advised Mrs. BLACK ELL that she and Mr BLACK ELL should feel that there was no compulsion to make any material available, and it was desired that they make up their minds whother to submit the letters with this in mind. It should be noted that the October 20, 1948 lottor to the BLACK ELLS from ATGER HISS was also for the purpose of ostablishing attendance of the HISS family at church.

Information in the files of the Chicago Office indicates that GERMING RABINOVITCH, an alloged Soviet espionage agent, in applying for citizonship, had listed has GEORGE BLACK ELL, Lake Forest Academy; with the Immigration & Naturalization Sorvice as a porson who could verify her residence during 1940 at Plainfield, Vermont. It should be noted that GEORGE H. BLACK ELL presently is a teacher at the lake Forest Academy. Mr. GEORGE BIACK ELD was also listed with the Immigration & Naturalization Service by ELTIE SIEGMUND GRUNBERG as a person who could verify his residence at Plainfield, Vermont from June, 1940 to August, 1940. GRUNBERG was known as a contact of RABINOTICH. In this connection, the BIACKTEILS both advised that they were in charge of a camp for the American Friends? Sorvice Committee at Plainfield, Vermont during the summer of 1940, and at this camp word refugees from Europe. They recalled GRUNBERG being there but could not recall RABINO ITCH. The fact that the BIACKVELL wore directors of this camp was proviously verified by DONAID B. WATT, Director of the Experiment in International Living, Inc., Putney, Vermont, who statod that GEORGE BLACKVELL was a high type person who had been recommended by FRANCIS SAYRE of the State Dopartment. During the interview with GEORGE H. BLACK, ELL ho commented that FRANCIS SAYRE was an old friend of his family.

GERAID J. MATCHETT 1551 East 65th Street Chicago, Illinois

Re: PHILLIP RENO

Mr. MATCHETT, who is prosently a professor in the Department of Economics, Illinois Institute of Technology, Chicago, on Decomber 23, 1948 advised the writer and Special Agent STIC A. LARSON that he first met PHILLIP RENO when both were students at the University of Colorado in 1930

in 1943.

and both were active in debating. They attended this school together from 1932 to 1934 and lived in the same apartment with several other students during the spring quarter of 1933 and all of 1934. During this period they were closely associated, and MATCHETT stated he know RENO was not a member of the Communist Party at that time. After leaving school MATCHETT saw very little of RENO except for occasional contacts until 1942, although they corresponded irrogularly. To the best of his recollection, late in 1942 while MATCHETT was with the War Labor Board in Donver, Colorado, PHILLIP RENO also became associated with this agency there in the Disputes Division. During working hours they did not associate because MATCHETT was in the Wage Stubilization, Division, and during the time RENO was there, which MATCHETT bolliovod to be about four or five months, their contact was limited to occasional lunches and social contacts. RENO resigned after his wife died

During this period MATCHETT stated he and RENO never discussed anything relating to Communism. Since 1943 MATCHETT has seen PHILLIP RENO during the summers in Colorado and both spont the entire summer of 1948 in Denvor whore they saw each other regularly. In the summer of 1948 MATCHETT also mot FRANKLIN VICTOR RENO whom he had not known proviously except for macting him about 1932 at the University of Colorado. He stated he know nothing concerning the activities of FRANKLIN VICTOR RENO. MATCHETT stated ho has had many convorsations with PHILLIP RENO on many different subjects and regards him as a Liberal. Ho does not know whether RENO is a member of the Communist Party, but stated that he would be surprised if he is because of RENO's philosophical differences with what MATCHETT believes to be the Communist Party theory and Communist Party program. MATCHETT also stated ho bollioves PHILLIP RENO is not a Communist bocause from many conversations with him, he has concluded that RENO is interested in refuting or approving idgas on the basis of the merit of the idea itself rather than on the basis of an established Party line.

In oxplaining why he bolicved RENO to be a Liberal, he stated that RENO would not criticize a person for being a Communist, is opposed to labeling porsons Communist, and bolieved in many principles associated with Liberal thinking. RENO has told MATCHETT that he would readily associate and work with Communists, although MATCHETT could cite no specific instances whore RENO had Communist friends or associates. According to MATCHETT, RENO has been engaged in political work in the Rocky Mountain Region during the recent past, and MATCHETT believes RENO told him of moeting and associating with several Communist Party members in this work. Last summer while MATCHETT and RENO vere associating regularly RENO expressed himself as being incensed

Kisseloff-4673

さんかいまいない さいかんかん

Chicago filo 65-3290

with the way Communist Party officials had interfered in the Progressive Party. MATCHETT emphasized that RENO made these statements only in private conversations and did not want his attitude to become public because he objected to what he called "Rod-baiting" in this manner. MATCHETT emphasized that he has always thought a great deal of PHILLIP RENO and they are close friends.

In connection with RENO's work with the federal government; M.TCHETT stated that no information over came to his attention indicating that RENO was or may have been removing official decuments from the government files or furnishing information orally to any unauthorized persons. M.TCHETT nover had any knowledge that either PHILLIP or FRANKLIN VICTOR RENO were in any way associated with AIGER HISS or HITTAKER CHAIBERS or had supplied information of these persons. Prior to newspaper publicity, MATCHETT did not know of any association between HISS and CHAIBERS.

Dr. EI)ER P. FILM Armour Rosearch Instituto 34th and Fedoral Streets Chicago, Illinois

Re: WILLIAM WARD PIGHAN

On Docombor 29, 1948 Dr. FLIM advised the writer and SA ROBERT J. ATISON that he first met WILLIAM WARD PIGMAN in 1930 shortly after both started to work at the Burcau of Standards, washington, D. C., at which time both word assigned to the Clay and Silicate Division. Tater FLIM transforred to the Sugar Division, but their contact continued and both he and PIGMAN took graduate work together at the University of Maryland, PIGMAN from about 1932 to 1936 and FIIM from 1934 to 1936. They visited in each others homes infrequently and their social contacts were not regular, At the Bureau of Standards Dr. FLIM saw PICNAN frequently until 21944 whom both loft this agoncy. Dr. FIINT stated that he was at PIGMAN's home on one or two occasions during the winter and spring of 1934 and also was at the home of J. S. ROCERS on one occasion a when at the homes of PIGMAN and ROCERS, ARTHUR U. THEVER, I. A. PALLER, ROGERS and HERBERT F. INSIEY were also present . According TLIM, those gatherings were for social and academic purposes and not in any way, sponsored by the Communist Party or any other organization. FLINT stated ho does not recall that the question of the Communist Party was ever discussed

With respect to PIGMAN, FILMI stated that he considers him to be a person who believes in some Socialistic ideas, and explained by stating that PIGMAN believes the government should own and control certain basic industries. FILMI never had any information come to his attention nor did PIGMAN divermake any statements indicating that he was a member of or sympathetic with the Communist Party or a member of any organization controlled by the Communist Party. FILMI emphasized that he respects PICMAN and never in any

Chicago filo 65-3290

CHITTENTING

way suspected that PIGMAN had furnished documents from the Bureau of Standards or had furnished information orally to "HITTAKER CHAMBERS or any such other person outside the government. Further, he never know of any association of PIGMAN with HITTAKER CHAMBERS or AIGER HISS or of any who, according to previous investigation in this case, introduced CHAMBERS to SLIGHTLY, but can furnish no information concerning him.

TYPEVRITTEN SPECIMENS

WHEELER SAMMONS, JR., A. N. Marquis Company; Chicago, publishers of Who!s Who, advised that material pertaining to AIGER HISS first appeared in the monthly supplement of Who!s Who and then was added to the Adenda of Volumo 24, which was published for the years 1946 and 1947. He reappeared 1950 and 1951. After a thorough search of the company!s files published for those volumes; including a search of original data obtained from persons this which could be located was a printer's copy of a form for Volume 26, listed in the space provided. This original form was made available to the 1948 for comparison with questioned documents in this case.

In a report dated December 31, 1948 the Taboratory advised that the typewriting speciment appearing in this document, which was designated as 14, was not prepared on the machine which was used to prepare Specimens Q6 through Q69 in instant case.

JOHN B. VERCOE, President, Rosehill Cometery Company, 5800
Ravenswood Avenue, Chicago, on January 4, 1949, produced their File 1645
pertaining to Lot 15, Section 112, which originally was purchased by THOMAS
L. FANSIER, father of PRISCILLA HISS. Upon examination of this file by Mr.
VERCOE and the writer, and after a search of other files by Mr. VERCOE, it
was ascertained that the only typewritten communications from members of the
Laboratory numbers included to designate each document):

K207 A typowritton lotter dated: November 23, 1925 on the stationery of The Northwestern Mutual Life Insurance Company of Milwaukee, Wisconsin, boginning "Gontlemen: "I am herewith returning plate. " and signed; "I THOMAS L. FANSIER."

K208 / typowritton lotter dated (127 XII 1939) on the stationery FANSIER

-10 =

3450 Chestnut St. Philadelphia, Pa.; beginning "Dear Mr Vercoe. Father wishes me to thank you for :: " and signed "DAISY FANSLER ".

- K209 A typewritten letter/dated "April Eighteenth 1933" on the stationery THOMAS I. FANSLER; 1616 Walnut Street, Philadelphia, beginning "Gentlemen: I am/returning herewith order... " and signed "THOMAS I. FANSLER."
- K210 A typewritten letter dated November 13, 1925 on the stationery of The Northwestern Kutual Life Insurance Company of Kilwaukee, Wisconsin, beginning "Gentlemen: I am enclosing my check for and signed "THOKAS L. FANSLER."
- K211 A typewritten letter dated April 11, 1925 on the stationery of The Northwestern Mutual Life Insurance Company of Milwaukee, Misconsin beginning "Gentlemen: Within the next two months..." and signed "THOMAS L. FANSLER."
- K212 A typewritten letter dated November 4, 1929 on the stationery of The Northwestern Mutual Life Insurance Company of Wilwaukee, Wisconsin beginning "Gentlemen: I am advised by the J. H. Anderson Monument Company..." and signed "THOMAS L. FANSLER."

In a report dated January 7, 1949 the FBI Laboratory advised that after an examination it was concluded that the typewriters used to prepare specimens K207 through K211 were not used to type Specimens 6 through Q69, which are the questioned documents in this case. A definite conclusion could not be reached with regard to a comparison of the typewriting appearing on K212 with the typewriting appearing on Specimens 36 through Q69. There were certain typewriting characteristics appearing in K212 and the questioned typewriting Q6 through Q69 which are in common, but there are also type—tring characteristics appearing in the known typewriting which do not appear in the typewriting on the questioned documents.

The referenced Springfield teletype dated January 5, 1949 advised that ALGER HISS authored an article entitled "The General Assembly of United Nations," which appeared in the Illinois Law Review for January and February, 1947. Liss MARIE CHRISTIANSON, Business Secretary, Illinois Law Review, Northwestern University Law School, 357 East Chicago Avenue, Chicago advised that the original manuscript submitted by ALGER HISS had been returned to him, however, she made available the following letters written by HISS with respect to this article:

1. Typewritten letter on the letterhead of the Department of State dated October 29, 1946, beginning "Dear Mrs. Palmer. I have received your letter of October 17... and Signed

1/168

"AIGER HISS."

CONFIDENTIALS

- 2. Typewritten lotter on the letterhead of the Department of State dated November 25, teginning "Dear Mrs. Palmer. I have made the necessary arrangements... and signed "AIGER HISS."
- Typewritten letter on the letterhead of the Department of State dated December 10, 1946, beginning "Dear Mrs. Palmer, As I promised you..." signed "AIGER HISS."
- Typewritten letter on the letterhead of the Department of State dated January 13, 1947, beginning "Dear Mr. Molchior: Your letter of January 9... signed AIGER HISS."

By lotter dated January 7, 1949 the above typewritten letters were submitted to the FBI Laboratory for comparison with the questioned documents in this case.

The referenced Burgau letter to New York dated January 5, 1949 advised that AIGER HISS delivered an address at Northwestern University during 1946 and requested that the University be contacted for any typewritten correspondence from HISS. It should be noted that the above letters obtained from the Illinois Law Review contained information as to HISS address on November 12, 1946 at the law School.

Mr. HAROID C. HAVIGHURST, Dean, Northwestern University Law School, after reviewing the file concerning the lecture delivered by AIGER HISS on the above date in Chicago, advised that the following is the only additional correspondence from HISS available at the Northwestern University:

Typewritten letter on the letterhead of the Department of State, Washington, dated November 13, 1946, beginning "Dear Dean Green: Liwant to take this occasion..." and signed by AIGER HISS.

Mr. HAVIGHURST was questioned regarding the possibility that correspondence from HISS prior to the lecture might be located; but he advised that none is available. He added that he knew who arranged the address and how this was accomplished, but did not desire to make this information available.

By letter dated January 11, 1949 the above letter was submitted to the FBI laboratory for comparison with the questioned documents.

As previously stated, Mr. and Mrs. GEORGE H. BLACKWELL, Make DEVICE Are described as follows:

- 1. Typewritten letter dated October 20; 1948 on the letterhoad of the Carnegic Endowment and International Peace; addressed to GEORGE H: BIACK/ELL; beginning "Doar Goorge: I am enclosing a copy of a letter..." and signed by ALCER HISS.
- 2. A carbon copy of a typewritten letter on the letterhead of the Carnegic Endowment and International Peace; consisting of two pages, addressed to the Rev. J. GILIESPIE ARMSTRONG, St. Mary's Rectory, Ardmore, Pennsylvania; dated October 20, 1948. This letter begins "Dear Gil: You may have seen the press accounts of the irresponsible and fantastic accusations to which I have been subject since early in August..." and is signed by AIGER HISS.

By letter dated January 7, 1949 those letters were submitted to the FBI Laboratory for comparison with the questioned documents.

MISCELLANEOUS INVESTIGATION

AELVIN O. JOHNSON, Secretary-Treasurer, Woodstock Typewriter Company; Woodstock, Illinois, on January 6, 1949 advised that repair records of the Woodstock Company, Washington Branch, for prior to 1942 are not available at the Woodstock Company's main office at the factory. Mr. JOHNSON explained that the Washington Branch was closed in 1946 and that any records which may have been returned to the main office at the time have been destroyed. The records since 1942 for the Washington Branch are those which always were maintained at the main office.

MARGARET HANSCHMANN, who is in charge of the Record Room, American Bar Association, 1138 North Dearborn, advised SA STIG A. LARSON that ALGER HISS, 3210 P Street, Washington 7, D. C., had been elected to the American Bar Association on January 27, 1947, and as of February 20, 1948 his address was changed to 22 East Eighth Street, New York City. He continues to be a member in good standing, but no specimens of his handwriting or typewritten communications from him appear in the records.

FLORENCE M. GUERNIER; Mombership Secretary in the Membership Department; American Bar Association, advised SA LARSON that her records consisted only of an application for membership by HISS in handwriting

- 13 -

and contained the following . He was admitted to practice in Massachusetts in, 1931 where he was associated for two years with the firm of Choate. Hall & Stowart 30 State Street, Boston, Massachusetts; He was also admitted to practico in New York State. His application was endorsed by ROY VALVINCE of 3016 43rd Street; N.W.; Washington; D.C.; Who, according to Miss GUERNIER also sont in the application. She also stated that V. LANCE was then active in the affairs of the International Comparative Law Section of the American Bar Association in Washington, D.C. and had sont in a number of applications from Washington; D.C. Miss GURNIER conducted a thorough scarch of the files in her office without locating any typowritten material ominating from HISS.

Roforenced New York tolotype dated January 5; 1949 requested that all information in the files of the Carnegie Illinois Steel Corporation. Chicago, concorning MORRIS ASIMON bo obtained. Miss ANNE WOODS, Parsonnel Office; Carnegio Illinois Steel Corporation; 208 South Iasalle Street, made available the handprinted application of MORRIS ASIMO and a personnel card transcribing information from this application. According to the personnel card, ASIMOV was employed in the Motallurgical Department at Chicago as a contact representative from July 13, 1936 to May 31, 1937, at which time he was transferred to Gary, Indiana. The following information was obtained from those personnel records:

> Date of birth Place of birth: Address: Tolephono:

Social Security Mumber:

Family:

Novembor 27, 1906 Milwaukoo, Wisconsin

7931 Manistoc, Chicago, Illinois

South Shore 2490 321-05-6950

LTLLIAN - wife born November 28 1908. The application stated that ASIMOW was living with his wife. but an additional address for hor in the file was 1423 Yowell St.

Iowa City Iowa

RUTH - daughtor, born Octobor 18

ROBERT - son born Octobor 26 1932 HARRY ASIMOV - fathor, born in

Russia. CELIA SLOTMIKOW, mother, born in

Russia.

Carnogic Illinois Steel Corporation for many years; advised that he was slightly acquainted with ASIMON while the latter was employed by the firm. Ho reviewed an additional file availabe in his office, which included a hand-written letter from ASIMON; and stated that ASIMON also resided at 1318 into the company by Mr. R. K. BOWDEN, then in Chicago and now Director of the Worked under the supervision of JOHN MITCHELL, now in the Alloy Sales

The referenced report of SA MAHLON F. COLLER, dated December 23.

PRISCILIA HISS, be interviewed and requested to furnish any typowritten material emanating from either Wr. or Mrs. AIGER HISS in his possession.

On December 29, 1948 Mr. FANSIER was interviewed in his office at the National Safety Council, Civic Opera Building, Chicago, by the writer and SA ROBERT J. VIISON. Mr. FANSIER was extremely hostile and uncooperative and would not commit himself as to whether he had any typewritten material omanating from Mr. and Mrs. AIGER HISS or would make available any such material. He made the statement he did not think much of the Department of Justice because it is prosecuting an innocent man.

ELIERINE B. HESS, Personnel Division, War Assets Administration, Navy Pier, Chicago, made available the personnel file of RALPH FANSIER, a brother of PRISCILIA HISS, who was employed by this agency from March 26, 1946 to October 19, 1948. Previously he worked for the Reconstruction Finance Corporation in Detroit from September 28, 1945 until March 25, 1946. The file contained no typowritten material from either Mr. or Mrs. HISS. AIGER HISS was mentioned in his employment application, and in a later letter dated in July 1945 to the RFC, FANSIER stated he hesitated to Solicit any aid from AIGER HISS of the State Department.

LLOYD J. JONES, 1245 Elmwood Avenue; Evanston, Illinois, Secretary, Evans-Lodge No. 524, Masonic Order, Evanston, reviewed his records and located the handwritten membership card of THOMAS L. FANSIER, who joined the Lodge on October 14, 1890. The record contained no typowritten material and did not record the death of Mr. FANSIER.

Re: FRANKLIN VICTOR RENO

On January 4, 1949 Mr. MEYER advised the writer and SA ROBERT J. WIISON that he first met FRANKLIN VICTOR RENO in February or Warch, 1944 when MEYEP was assigned to a research section at the Aberdeen Proving Grounds, Aberdeen, Maryland, of which RENO was also a member. This section was under the leadership of EDWARD J. MC SHAME, and others working in the section were Arthur's, Peters, John L. Kelley, A. T. Morris, Herb Federer and KIRK FORT. The latter two were in the United States Army . After sev or eight months on this job MEYER moved into a room directly across the from RENO in what he recalled to be the Dormitory for Baldwin Manor) Abordeon, Maryland, and both occupied bachelor quarters in this don until about September, 1946 whon MEYER left this employment.

MEYER emphasized that he came to know RENO intimately in the

Chicago filo 65-3290.

worked with him daily and conversed with him on many occasions. On some of these occasions RENO had been drinking quite heavily. MEYER stated that RENO had previously suffered a nervous breakdown, with the result that he was inclined to be moody and actually had few close daily associates at the project. During the many conversations MEYER had with RENO he stated that RENO never mentioned that he was a member of the Communist Party or indicated that in any way he was active in or sympathetic with this organization. MEYER did not notice any activities on RENO's part which would indicate any affiliation with the Communist Party. MEYER thought that on one occasion RENO may have said something to the effect that while he was in college he was affiliated with radical outfits; but had not been associated with such organizations since that time. However, MEYER was not sure that this statement had been made by RENO, and emphasized that he would not testify that this statement had been made.

During the time MEYER and RENO were at the Aberdeen Proving Grounds, five employees were fired by the Army for security reasons, and MEYER and RENO, along with many others, were active in promoting open meetings designed, according to MEYER, to make the charges against these persons public. MEYER did not know of any Communist Party sponsorship involved in promoting those meetings and stated he did not know the nature of the charges against the five employees. RENO, on one occasion, went to see an archbishop in Baltimore in an attempt to have him use influence in protecting the interests of the five employees.

In his many conversations with RENO; MEYER nover heard the latter mention AIGER HISS or WHITTAKER CHAMBERS; and MEYER nover noticed anything which would indicate that RENO was furnishing any information to unauthorized persons, including CHAMBERS. In this connection MEYER stated that he never had any reason to suspect RENO was affiliated with any Communist Party underground movement, and prior to the recent newspaper publicity, MEYER did not have any knowledge of the alleged activities of CHAMBERS or HISS.

MEYER concluded by saying he never suspected RENO of any illegal activity, and in fact felt that he was a vory conscientious hard-worker, whom MEYER considered to be one of the civilian heroes of the war.

In addition to persons listed above as having worked in the same section at Aberdeen, MEYER stated that J. V. IE/IS came to the Proving Grounds about the time MEYER left and reportedly is still employed there, with the result that he may also know RENO. MEYER was unable to furnish any additional information concerning RENO's associates in Mashington, but stated that on an occasion when MEYER planned a trip to Colorado, RENO furnished him a list of some of his relatives and the following frience the most.

and the same of th

Re: ALGER AND PRISCILLA HISS

On December 30, 1948 ETHEL BIACKVELL advised the writer

Chicago 110 65-3290

Spocial Agent ROBERT J. WILSON that sho first know AIGER RISS Tightly Baltimoro where they both were reared and both attended the Baltimoro Friends School at different times. Their acquaintance was very casual during this poriod and showsaw him again whom ho was at Harvard University and sho was attending Radeliffe College: AlGER HISS was in the class of her husband!s sister at John Hopkins University. Mrs. BIACKWELL bocamo reacquaintod with AIGER HISS and met Mrs. AIGER HISS in Washington, D. C. at the time his step-son, TIMOTHY HOBSON; became a student at the Landon School in Bothesda; Maryland. Mrs. BLACKWELL at first thought this was in 1934, but after reviewing a recent letter from kicer HISS, which will be described lator, she set this date as 1936; at which time both Mrs. BLACK ELL and hor husband, GEORGE H. BLACKWELL, were toaching at the landon school.

Subsequently, Mrs. BIACKWELL became botter acquainted with PRISCILL HISS than she did with AIGER, inasmuch as she saw Mrs. HISS quite frequently bocause of their mutual interest in music, with the result that they attended some concerts and other functions together. However, she and Mr. BL/CK ELL saw both Mr. and Mrs. HISS two or three times a year from 1936 until December of 1941. The BLACK ELLs left Washington in 1942, since which time they have corresponded with the HISSes, occasionally. On at least one occasion Mr. and lra. BIACKIELL word at tho HISS homo for dinner.

TIMOTHY HOBSON romained in the Landon School for about two or throc years and also was in the choir of the Christ Church, Goorgotown, whore Mrs. BLACKVELL was in charge of music. Mr. and Mrs. Alger Hiss occasionally attended this church. With respect to TIMOTHY HOBSON's attendance at the Landon School, Mrs. BIACKWELL recalled that on one occasion AIGER HISS sent a letter to the Headmaster concerning his attendance; and this letter was read at a faculty meeting. She did not know whether the letter was typewritten.

During the interview, Mrs. BIACKWELL s husband, GEORGE H. BIACKWELL returned to their home, and affirmed the above facts. Both stated that during their association with Mr. and Wrs. HISS they never heard either make any statements or noticed either engage in any activity which would indicate that the HISSes were members of the communist Party or affiliated with this organization in any way. During the portod from Septembor, 1939 to June: 1940 whon Russia and Germany were working together in an alliance, they stated they had little association with the HISSes, but did not notice any change in attitude of Mr. and Mrs. HISS concerning foreign affairs. Both emphasized that they have the greatest respect and admiration for both Mr. and Mrs. HISS and never had any suspicion that either were engaged in any activity detrimental to the United States.

> Prior to recent publicity in the newspapers, neither in nor Mrs. CHAPPE TO THE

Chicago-filo:65-3290

BLACK ELL hoard of WHITTAKER CHAMBERS and nover know of any association of CHAMBERS with AIGER or PRISCILLA HISS: Also; they never had any reason to bolieve that kicer HISS was furnishing information to CHAMBERS or anyone olse outside the government. Both Mr. and Mrs. BLACKWELL stated they did not know whether Mr. and Mrs. HISS owned a typewriter or had one in their home. Their last association with Mr. and Mrs. HISS was on December 23, 1941 at a party in Washington; D. C. givon by L. CORRIN STRONG and his wife Mrs. A LICE TROWERIDGE STRONG. Mr. STRONG was a high ranking officer in the United States Army. The only other associates of the HISSes known to Mr. and Mrs. BLACKWELL word the following:

> Mr. and Mrs. SLOCUM KINGSBURY Washington D. C. (Mr. KINGSBURY is an architect)

> VILLEAM TRIPLETT Hoadmastor of the Landon School Bothosda, Maryland

Prior to 1948 the BLACKVELLS did not recall receiving any typewritton correspondence from cither Mr. or Mrs. HISS: but in 1948 received two, typewritten lotters from AIGER HISS on the letterhead of the Carnegie Endowment and International Poace, together with a carbon copy of a letter on the same letterhoad dated Octobor 20, 1948, from AIGER HISS to Rev. J. GILLESPIE ARMSTROM, St. Mary's Rectory, Ardmore, Pennsylvania. They could not locate one of the letters from Mr. HISS but Located a letter dated October 20, 1948, in which HISS states that he believed they first knew the BLACKWELLs, at the time TIM ontered Landon in the fall of 1936. He also refore to various occasions when he and PRISCILIA and the BLACKWELLS wont to Christ Church for the evening services. In the letter to Rev. ARMSTRONG HISS informs him that he may have seen the press accounts of what HISS doscribes as irresponsible and fantastic accusations to which he has been subject; since early, in August; and that HISS is engaged in the laborious task of demonstrating one by one that various of what he describes as hallucinatory statements by CHAMBERS are contrary to reality. HISS states in this letter that one of CHAMBERS! fantasies was that HISS was forbidden to go to church, and that the time to which CHAMBERS would be referring would begin in carly winter 1945 and extend for a year or two HISS stated that this coincided with the apring when ha moved to 2095 P. Street in Georgotown, which would be about the time Rov. ARMSTROM came to the Christ

MISS believed that either in the spring or fall of 1935 he and

his wife began occasionally to attend Christ Church services endithed beth that time TIN (TIM HOBSON) became one of the choir boys. HISS continued in the lotter that their interest in Christ Church continued as they attended regularly, but that TIM ceased his activities in the choir because of a serious accident on February 19, 1937. HISS asked Roy. ARMSTROM to write him concerning the attendance of Mr. and Mrs. HISS at the Christ Church and TIMMY's activity in the choir. The BLACKWELLs made available both letters by registered mail. In submitting a copy of the letter to Roy. ARMSTROM, Mrs. BLACKWELL, in a letter to this office, advised that she and Mrs. BLACKWELL were hesitant to send this letter because it was confidential. In this connection, the writer advised Mrs. BLACKWELL that she and Mrs. BLACKWELL should feel that there was no compulsion to make any material available, and it was desired that they make up their minds whether to submit the letters with this in mind. It should be noted that the October 20, 1948 letter to the BLACKWELLs from AIGER HISS was also for the purpose of establishing attendance of the HISS family at church.

Information in the files of the Chicago Office indicates that GERMINA RABINOWITCH, an allogod Soviet espionage agent; in applying for citizonship, had listed Mrs. GEORGE BIACKTELL, lake Forest Academy, with the Immigration & Naturalization Service as a person who could verify her residence; during 1940 at Plainfield, Vermont of It should be noted that GEORGE H. BLACK/ELL prosently is a teacher at the lake Forest Academy. Mr. GEORGE BLACK ELL was also listed with the immigration & Naturalization Service by EMILE SIEGMOND GRUNBERG as a person who could verify his residence at Plainfield, Vermont from June, 1940 to August, 1940, GRUNBERG was known as a contact of RABING ITCH. In this connection, the BLACKWELL'S both advised that they were in charge of a camp for the American Friends Scrvice Committee at Plainfield, Vermont during the summer of 1940, and at this camp word rotugoes from Europo. They recalled GRUNBERG being there but could not recall RABINO TICH; The fact that the BIACK/ELLS wore directors of this camp was previously verified by DONAID B. WATT; Director of the Exporiment in International Living, Inc., Putney, Vermont; who stated that GEORGE BLACKVELL was a high type person who had been recommended by FRANCIS SAYRE of the State Department. During the Interview with GEORGE H. BLACKWELL ho commented that FRANCIS SAYRE was an cold friend of his family.

GERAID J. MATCHETT 1551 East 65th Street Chicago, Illinois

Re: PHILLIP RENO

Mr. MATCHETT; who is presently a professor in the Department of Economics; Illinois Institute of Technology; Chicago, on December 23, 1948 advised the writer and Special Agent STIG A. LARSON that he first mot PHILLIP RENO when both were students at the University of Colorado in 1930.

and both wore active in debating. They attended this school together from 1932 to 1934 and lived in the same apartment with several other students; during the spring quarter of 1933 and all of 1934. During this period they were closely associated, and MATCHETT stated he know RENO was not a member of the Communist Party at that time. After leaving school MATCHETT saw very corresponded irregularly. To the best of his recollection, late in 1942 while MATCHETT was with the War Labor Board in Denver, Colorado, PHILLIP RENO During working hours they did not associate because MATCHETT was in the Wage believed to be about four or five menths, their contact was limited to occasional lunches and social contacts. RENO resigned after his wife died in 1943.

During this period MATCHETT stated he and RENO never discussed anything relating to Communism. Since 1943 MATCHETT has seen PHILLIP RENO during the summers in Colorado and both spent the entire summer of 1948 in Denver where they saw each other regularly. In the summer of 1948 MATCHETT meeting him about 1932 at the University of Colorado. He stated he knew nothing concerning the activities of FRANKLIN VICTOR RENO. MATCHETT stated and regards him as a Liberal. He does not knew whether RENO is a member of the Communist Party, but stated that he would be surprised if he is because Communist Party theory and Communist Party program. MATCHETT also stated he believes PHILLIP RENO is not a Communist because from many conversations with him, he has concluded that RENO is interested in refuting or approving of an established Party line.

In explaining why he believed RENO to be a Liberal, he stated that RENO would not criticize a person for being a Communist, is opposed to Labeling persons Communist, and believed in many principles associated with and work with Communists, although MATCHETT that he would readily associate where RENO had Communists, although MATCHETT could cite no specific instances; has been engaged in political work in the Rocky Mountain Region during the recent past, and MATCHETT believes RENO told him of meeting and associating with several Communist Party members in this work. Last summer while MATCHETT and RENO were associating regularly RENO expressed himself as being inconsed.

Chicago filo 65-3290.

COMPANY

with the way Communist Party officials had interfered in the Progressive Party. MATCHETT omphasized that RENO made these statements only in private conversations and did not want his attitude to become public because he objected to what he called "Red-baiting" in this manner. MATCHETT omphasized that he has always thought a great deal of PHILLIP RENO and they are close friends.

In connection with RENO'S work with the federal government, MATCHETT stated that no information over came to his attention indicating that RENO was or may have been removing official documents from the government files or furnishing information enally to any unauthorized persons. MATCHETT never had any knowledge that either PHILLIP or FRANKLIN VICTOR RENO were in any way to any of these persons. Prior to newspaper publicity, MATCHETT did not know of any association between HISS and CHAMBERS.

Dr. EINER P. FIINT Armour Rosearch Institute 34th and Federal Streets Chicago, Illinois

Re: WILLIAM WARD PIGUAN

On Docember 29, 1948 Dr. FIINT advised the writer and SA ROBERT J. wilson that he first met "ILILAM WARD PIGMAN in 1930 shortly after both started to work at the Bureau of Standards, Nashington, D. C., at which time both were assigned to the Clay and Silicate Division. Later FIINT transferred to the Sugar Division, but their contact continued and both he and PIGMAN took graduate work together at the University of Maryland, PIGMAN from about infrequently and their social contacts were not regular. At the Bureau of Standards Dr. FIINT saw PIGMAN frequently until 1944 when both left this agency. Dr. FIINT stated that he was at PIGMAN's home on one or two occasions on one occasion. When at the homes of PIGMAN and ROGERS, ARTHUR U THEUER FILMT, these gatherings were for social and academic purposes and not in any way sponsored by the Communist Party or any other organization. FIINT stated to does not recall that the quest on of the Communist Party was aver discussed.

With respect to PIGMAN, FILINT stated that he considers him to be a porson who believes in some Socialistic ideas, and explained by stating that PIGMAN believes the government should own and control certain basic industries. The properties that any information come to his attention nor did PIGMAN ever the Communist Party or a member of any organization controlled by the Communist Party. FILINT emphasized that he respects PIGMAN and never in any

way suspected that PIGMAN had furnished documents from the Bureau of Standards or had furnished information orally to WHITTAKER CHAMBERS or any association of PIGMAN with HITTAKER CHAMBERS or AIGER HISS or of any association between the latter two. Dr. FLINT never heard of DAVID CARPENTER Who, according to previous investigation in this case, introduced CHAMBERS to slightly, but can furnish no information concerning him.

TYPEWRITTEN SPECIMENS

WHEEER SAMMONS, JR., A: N. Marquis Company, Chicago, publishers of Who!s Who, advised that material pertaining to AIGER HISS first appeared in the monthly supplement of Who!s Who and then was added to the Adenda in Volume 24, which was published for the years 1946 and 1947. He reappeared 1950 and 1951. After a thorough search of the company!s files pertaining to those volumes; including a search of original data obtained from persons included therein. Mr. SAMMONS advised that the only material submitted by which could be located was a printer's copy of a form for Volume 26, listed in the space provided. This original form was made available to the 1948 for comparison with questioned documents in this case.

In a report dated December 31, 1948 the Taboratory advised that the typewriting specimen appearing in this document, which was designated as Q6 through Q69 in instant case.

JOHN B. VERCOE, President, Rosehill Cemetery Company, 5800; Ravenswood Avenue, Chicago, on January 4, 1949, produced their File 1645. Dertaining to lot 13, Section 112; which originally was purchased by THOMAS L. FANSIER, father of PRISCILLA HISS. Upon examination of this file by Mr. VERCOE and the writer, and after a search of other files by Mr. VERCOE, it was ascertained that the only typewritten communications from members of the FANSIER family in possession of the cometery are the following (FBI Laboratory numbers included to designate each document):

K207 A typowritton letter dated November 23; 1925 on the stationery of The Northwestern Mutual Life Insurance Company of Milwaukee, Wisconsin, beginning "Gentlemen; I am herewith returning plat..." and signed

K208 A typowritton latter dated "27 XII 1939" on the stationery FANSIER

3450 Chestnut St., Philadelphia, Pa., beginning "Dear Wr. Vercoe: Father wishes me to thank you for: . "; and signed "DAISY FANSLER"

- K209 A typewritten: letter dated: "April Eighteenth 1933" on the stationery THOMAS I. FANSLER, 1616; Walnut Street, Philadelphia, beginning "Gentlemen: I am returning herewith order ... ", and signed "THOMAS I. FANSLER."
- K210 A typewritten letter dated November 13, 1925 on the stationery of The Northwestern Mutual Life Insurance Company of Milwaukee, Wisconsin, beginning "Gentlemen: I am enclosing my check for ... and signed "THOMAS L. FANSLER."
- K211 A typewritten letter dated April 11, 1925 on the stationery of The Northwestern Mutual Life Insurance Company of Milwaukee; "isconsing Deginning "Gentlemen: Within the next two months..." and signed "THOMASTI, FANSLER"
- K212 A'typewritten letter dated November 4, 1929 on the stationery of The Northwestern Mutual Life Insurance Company of Milwaukee, Visconsin beginning "Gentlemen" I am advised by the J. H. Anderson Monument Company... and signed "THOLAS L. FANSLER."

In a report dated January 7, 1949 the FBI Laboratory advised that after an examination; it was concluded that the typewriters used to prepare Specimens K207 through K211 were not used to type Specimens 6 through Q69, which are the questioned documents in this case. A definite conclusion could not be reached with regard to a comparison of the typewriting appearing on K212 with the typewriting appearing on Specimens 36 through Q69. There were certain typewriting characteristics appearing in K212 and the questioned typewriting Q6 through Q69 which are in common, but there are also typewriting characteristics appearing in the known typewriting which do not appear in the typewriting on the questioned documents.

The referenced Springfield teletype dated January 5, 1949 advised that AICAR HISS authored an article entitled "The General Assembly of United Nations," which appeared in the Illinois Law Review for January and February, 1947. Liss MARIE CHRISTIANSON, Business Secretary, Illinois Law Review, Northwestern University Law School, 357 East Chicago Avenue, Chicago advised that the original manuscript submitted by ALGER HISS had been returned to him, however, she made available the following letters written by HISS with respect to this article.

1. Typewritten letter on the letterhead of the Department of State dated October 29, 1946, beginning "Dear Ars. Palmer I have received your letter of October 17..." and signed

11/4/

"AIGER HTSS

- 2. Typowritten letter on the letterhead of the Department of State dated November 25, beginning "Doar Mrs. Palmer: I have made the necessary arrangements..." and signed "AIGER HISS."
- 3. Typewritten letter on the letterhead of the Department of State dated December 10, 1946; beginning "Dear Mrs. Palmer: As I promised you..." signed "AIGER HISS."
- 4. Typowritten letter on the letterhoad of the Department of State dated January 13, 1947, beginning "Dear Mr. Molchior. Your letter of January 9..." signed //IGER/HISS:

By lotter dated January 7, 1949 the above typewritten letters were submitted to the FBI Laboratory for comparison with the questioned documents in this case.

The referenced Bureau letter to New York dated January 5, 1949 advised that AIGER HISS delivered an address at Northwestern University during 1946 and requested that the University be contacted for any typewritten correspondence from HISS. It should be noted that the above letters obtained from the Illinois Law Review contained information as to HISS! address on November 12, 1946 at the Law School.

Mr. HAROID C. HAVIGHURST, Dean; Northwestern University Law School after reviewing the file concerning the lecture delivered by AIGER HISS on the above date in Chicago; advised that the following is the only additional correspondence from HISS available at the Northwestern University:

Typewritten letter on the letterhead of the Department of State; Washington; dated November 13, 1946, beginning "Dear Dean Green: I want to take this occasion..." and signed by AIGER HISS.

Mr. HAVIGHURST was questioned regarding the possibility that correspondence from HISS prior to the lecture might be located, but he advised that none is available. He added that he knew who arranged the address and how this was accomplished; but did not desire to make this information available.

By letter dated January 11, 1949 the above letter was submitted to the FBI laboratory for comparison with the questioned documents.

As proviously stated, Mr. and Mrs. GEORGE H. BLACKWELL, Take Forest, Illinois, furnished two typowritten letters from AIGER HISS, which

- Typewritten letter dated October 20, 1948, on the letter load of the Carnegic Endowment and International Peace, addressed to GEORGE H. BLACKVELL, beginning "Dear George. I am enclosing a copy of a letter..." and signed by ALCER HISS.
- 2. A carbon copy of a typowritten letter on the letterhead of the Carnegic Endowment and International Peace, consisting of two pages, addressed to the Rov. J. GILLESPIE ARMSTROM: St. Maryls Rectory, Ardmore, Pennsylvania, dated October 20, 1948. This letter begins "Dear Gil: You may have seen the press accounts of the irresponsible and fantastic accusations to which I have been subject since early in August... and is signed by AIGER HISS:

By lotter dated January 7, 1949 these letters were submitted to the FBI laboratory for comparison with the questioned documents.

MISCELLANEOUS INVESTIGATION

AELVIN O. JOHNSON, Secretary-Treasurer, Woodstock Typewriter Company, Woodstock; Illinois, on January 6. 1949 advised that repair records of the Woodstock Company, Washington Branch, for prior to 1942 are not available at the Woodstock Company's main office at the factory. Mr. JOHNSON explained that the Washington Branch was closed in 1946 and that any records which may have been returned to the main office at the time have been destroyed. The records since 1942 for the Washington Branch are those which always were maintained at the main office.

MARGARET HANSCHMANN, who is in charge of the Record Room, American Bar Association, 1138 North Dearborn, advised SA-STIG A. JARSON that AIGER HISS, 3210 P Street, Washington 7, D. C., had been elected to the American Bar Association on January 27, 1947, and as of February 20, 1948 his address was changed to 22 East Eighth Street, New York City. He continues to be a communications from him appear in the records.

FLORENCE M. GUERNIER, Mombership Secretary in the Membership Department, American Bar Association; advised SA LARSON that her records consisted only of an application for membership by HISS in handwriting

-013

and contained the following : He was admitted to practice in Hassachusetts in 1931 whore he was associated for two years with the firm of cheater that & Stewart: 30 State Street, Boston, Massachusetts. He was also admitted to practice in New York State. His application was endorsed by ROY VILANCE of 3016, 43rd Street, N.W., Washington, D.C., who, according to liss GUERNIER. also sent in the application. She also stated that V. LANCE was then active in the affairs of the International Comparative Law Section of the American Bar Association in Washington, D.C. and had sont in a number of applications from mashington, D.C. Miss GUERNIER conducted a thorough search of the Illes in her office without locating any typowritten material ominating from

Referenced New York, to Letypo dated January, 5, 1949; requested that all information in the files of the Carnegic Illinois Steel Corporation; Chicago; concorning MORRIS ASIMO bo obtained. CONFIDENTIAL

PRISCILLA HISS, be interviewed and requested to furnish any typowritten material emanating from either Mr. or Mrs. AIGER HISS in his possession.

On December 29, 1948 Mr. FANSLER was interviewed in his office at the National Safety Council, Civic Opera Building, Chicago, by the writer and SA ROBERT J. WIISON. Mr. FANSLER was extremely nostile and undecoperative and would not commit himself as to whether he had any typewritten material omanating from Mr. and Mrs. AIGER HISS or would make available any such material. He made the statement he did not think much of the Department of Justice because it is prosecuting an innocent man.

ELIERINE B. HESS, Personnol Division, War Assets Administration, Navy Pier, Chicago; made available the personnel file of RALPH FAMSIER, a brother of PRISCILIA HISS, who was employed by this agency from March 26, 1946 to October 19, 1948. Previously he worked for the Reconstruction Finance Corporation in Detroit from September 28, 1945 until March 25, 1946. The file contained no typewritten material from either Mr. or Mrs. HISS. AIGER HISS was mentioned in his employment application, and in a later letter dated in July 1945 to the RFC, FAMSIER stated he hesitated to solicit any aid from AIGER HISS of the State Department.

LLOYD J. JONES, 1245 Elmwood Avenue, Evanston; Illinois, Secretary, Evans Lodge No. 524, Masonic Order, Evanston, reviewed his records and located the handwritten membership card of THOMAS L. FANSIER, who joined the Lodge on October 14, 1890. The record contained no typowritten material and did not record the death of Mr. FANSIER.
